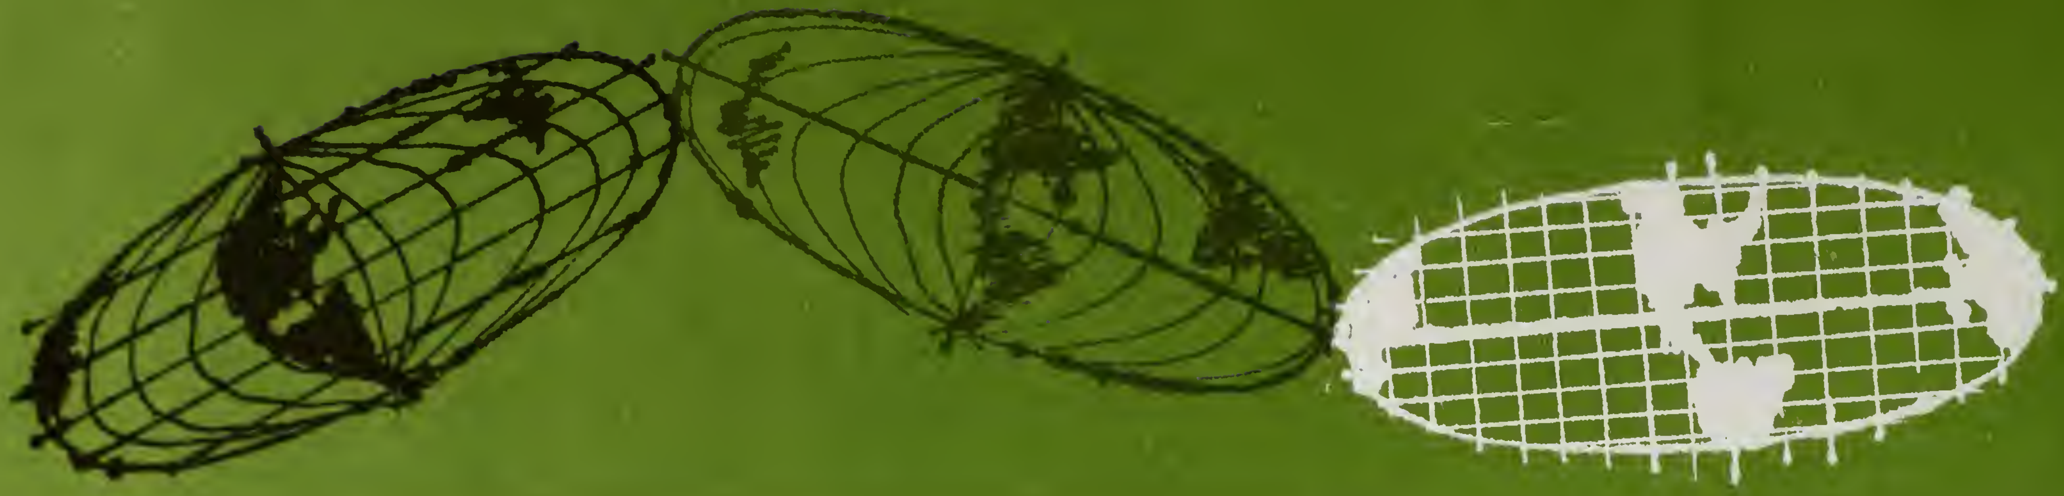
IN THIS CHANGING WORLD . . .

Nature and her elements combine to form a myriad of patterns as intricate as the web into which our lives are spun.



AN EDUCATION

The value of an education lies in the struggle to get it. Do too much for people, and they will do nothing for themselves.

You are not to draw close about you the skirts of intolerance, nor look with disdain on those less fortunate; but always, and at all times, be able to place yourself, through the gift of imagination, in the position of others.

Thus do you evolve sympathy and pity, two sentiments without which a man is indeed but a mental mendicant.

If I supply you a thought you may remember it and you may not. But if I can make you think a thought for yourself, I have indeed added to your stature.

The best service a book can render you is, not to impart truth, but to make you think it out for yourself.

Education is simply the encouragement of right habits — the fixing of good habits until they become a part of one's nature, and are exercised automatically.

Manhood, not scholarship, is the first aim of education.

—Elbert Hubbard

is derived not only through books but also includes…

Voting for Ski King and Queen is an annual winter affair preceding Winter Carnival weekend.

City Police come to Hannon prepared to shoo away the naughty boys with their water cans.

Students devote long hours in the preparation of dramatic productions with a professional quality.

Songleaders kick up a storm to the tune of "Here Comes the Bride."

Cars come out shiny and bright at the WUS carwash each spring quarter.

Participation In Activities . . .

No man can wrap his cloak about him and say that he will stand alone, that his life shall not influence nor be influenced by other lives. Even the mountain that lifts its snow-capped summit to the clouds is enclosed around with influences that constantly change its characteristics . . . the sun, the mighty king of day, melts its ice-bound top, and the rain plows furrows in its gigantic sides. So these different activities throw around human lives, sunshine of friendship and raindrops of charity and love.

There must be a ball connected with this game since it's called basketball.

Intramural sports by the men's living groups stimulate keen competition for the shining trophy.

Band members contribute their part to boost the Bobcats on to victory.

Student photographers watch at the sidelines to capture the history-making event.

Some winter fraternity functions are highlighted by the choosing of a queen and her attendants.

Sparkling punch adds to the evening's refreshment time before the next dance begins.

Pre-functions of some of the major social functions prove to be a popular activity.

Attending Social Functions . . .

In the course of this ever changing world comes times when students must shed the responsibilities of studies and turn to lighter things. Sweaters are changed for black ties and formals. Flats are replaced by heels. Books are closed and music takes over. In short, social functions enhance the campus with its gaiety and laughter, and for a short time the seriousness of life is forgotten in the quest for fun and companionship.

CHAMPION
1960

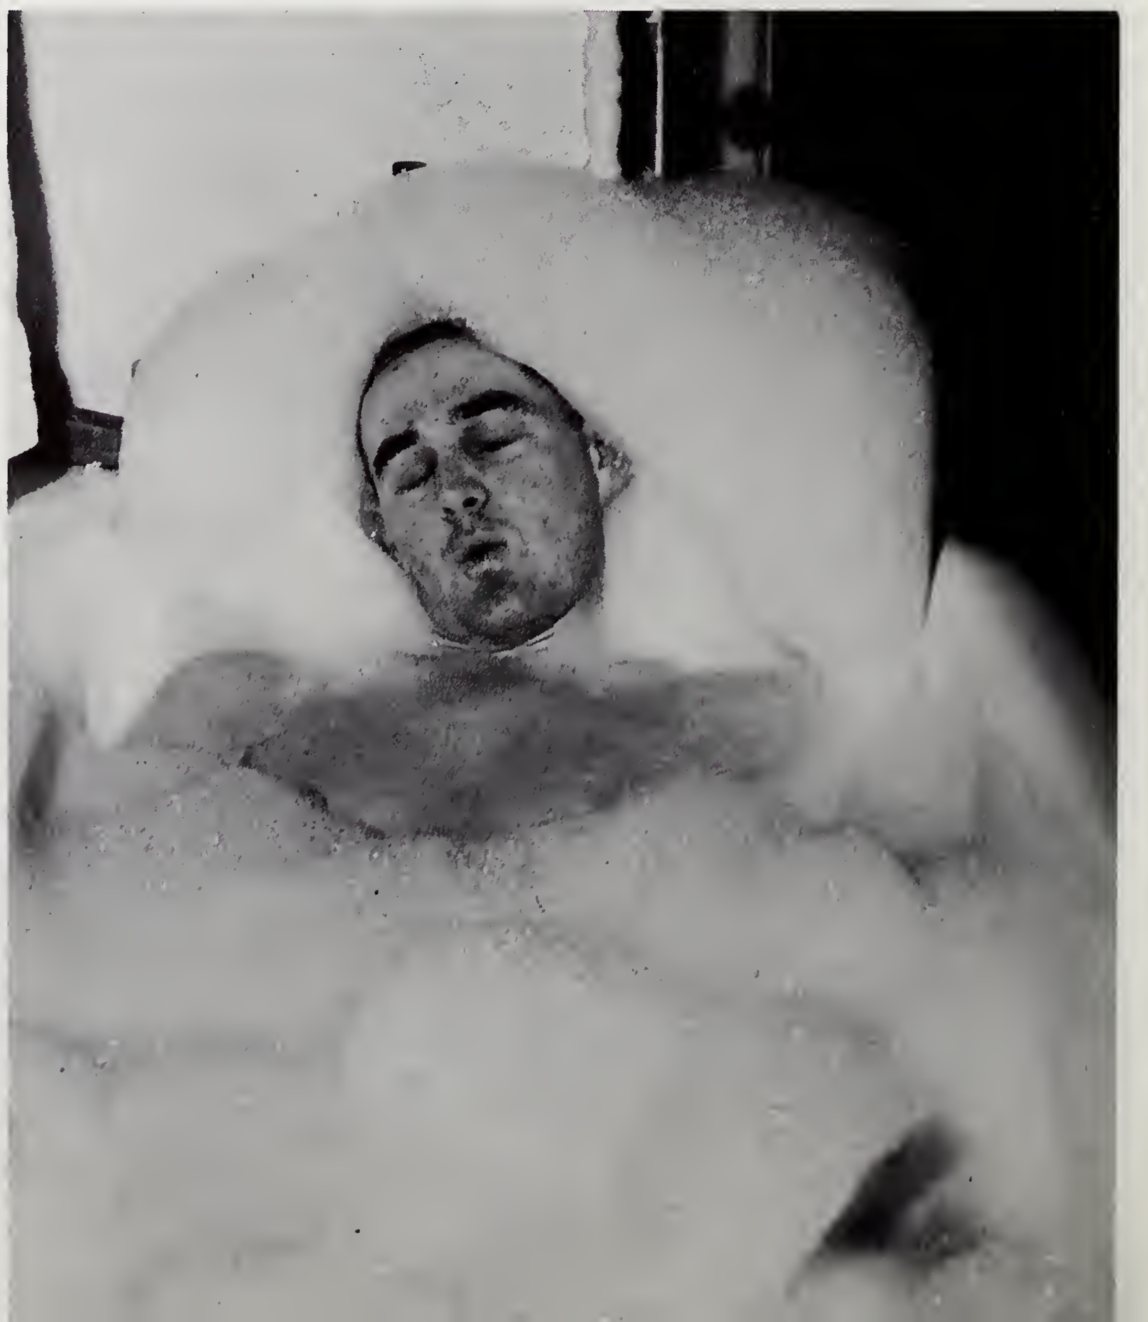
The champ displays her trophy for cramming pies the fastest.

Hearts and flowers provide the proper atmosphere for a Valentine kiss.

1960 Military Ball was highlighted by the announcement of Maurine Dineen as Coed Colonelette.

Bowling at the SUB is one sure way of spending time when you don't want to study.

Writing for the Exponent can sometimes be a challenge — if you can't find a chair.



Ah — a bubbling bath to soothe those ragged nerves.

Enjoying Many Forms of Relaxation . . .

You were made for enjoyment, and the world was filled with things which you will enjoy, unless you are too proud to be pleased with them, or too grasping to care for what you cannot turn to other account than mere delight.

—*Ruskin*

At the close of a weary day, who has energy left to do anything but collapse.

Everybody is going to the SUB these days for cokes — or milk.

Pool is just one more phase of the American Way which may be found at college.

Seminars during REW provide an informal atmosphere for delving into religious beliefs.

Students are able to participate in religious activities to whatever extent they wish.

Question and answer periods allow all faiths to express their own beliefs.

Religion is merely a word which may be expressed by the individual.

and Worshiping Together . . .

Faith is the silver thread upon which the pearls of the graces are to be strung. Break that, and you have broken the string — the pearls lie scattered on the ground; nor can you wear them for your own adornment. Faith is the mother of virtues. Faith is the fire which consumes sacrifice. Faith is the water which nurtures the root of piety. If you have not faith, all your graces must die; and in proportion as your faith increases, so will all your virtues be strengthened, not all in the same proportion, but all in some degree.

—*C. H. Spurgeon*

Danforth Chapel is centrally located on campus so that any student may find religion in his own manner.

The church — a place to meditate and discover the values of life.

The door is open so that all may enter.

Finding a lonely, quiet spot to read your book may require a bit of ingenuity.

The class lecture — a scribble here and a scribble there to help you remember the content at a later date when it is time to study for a test.

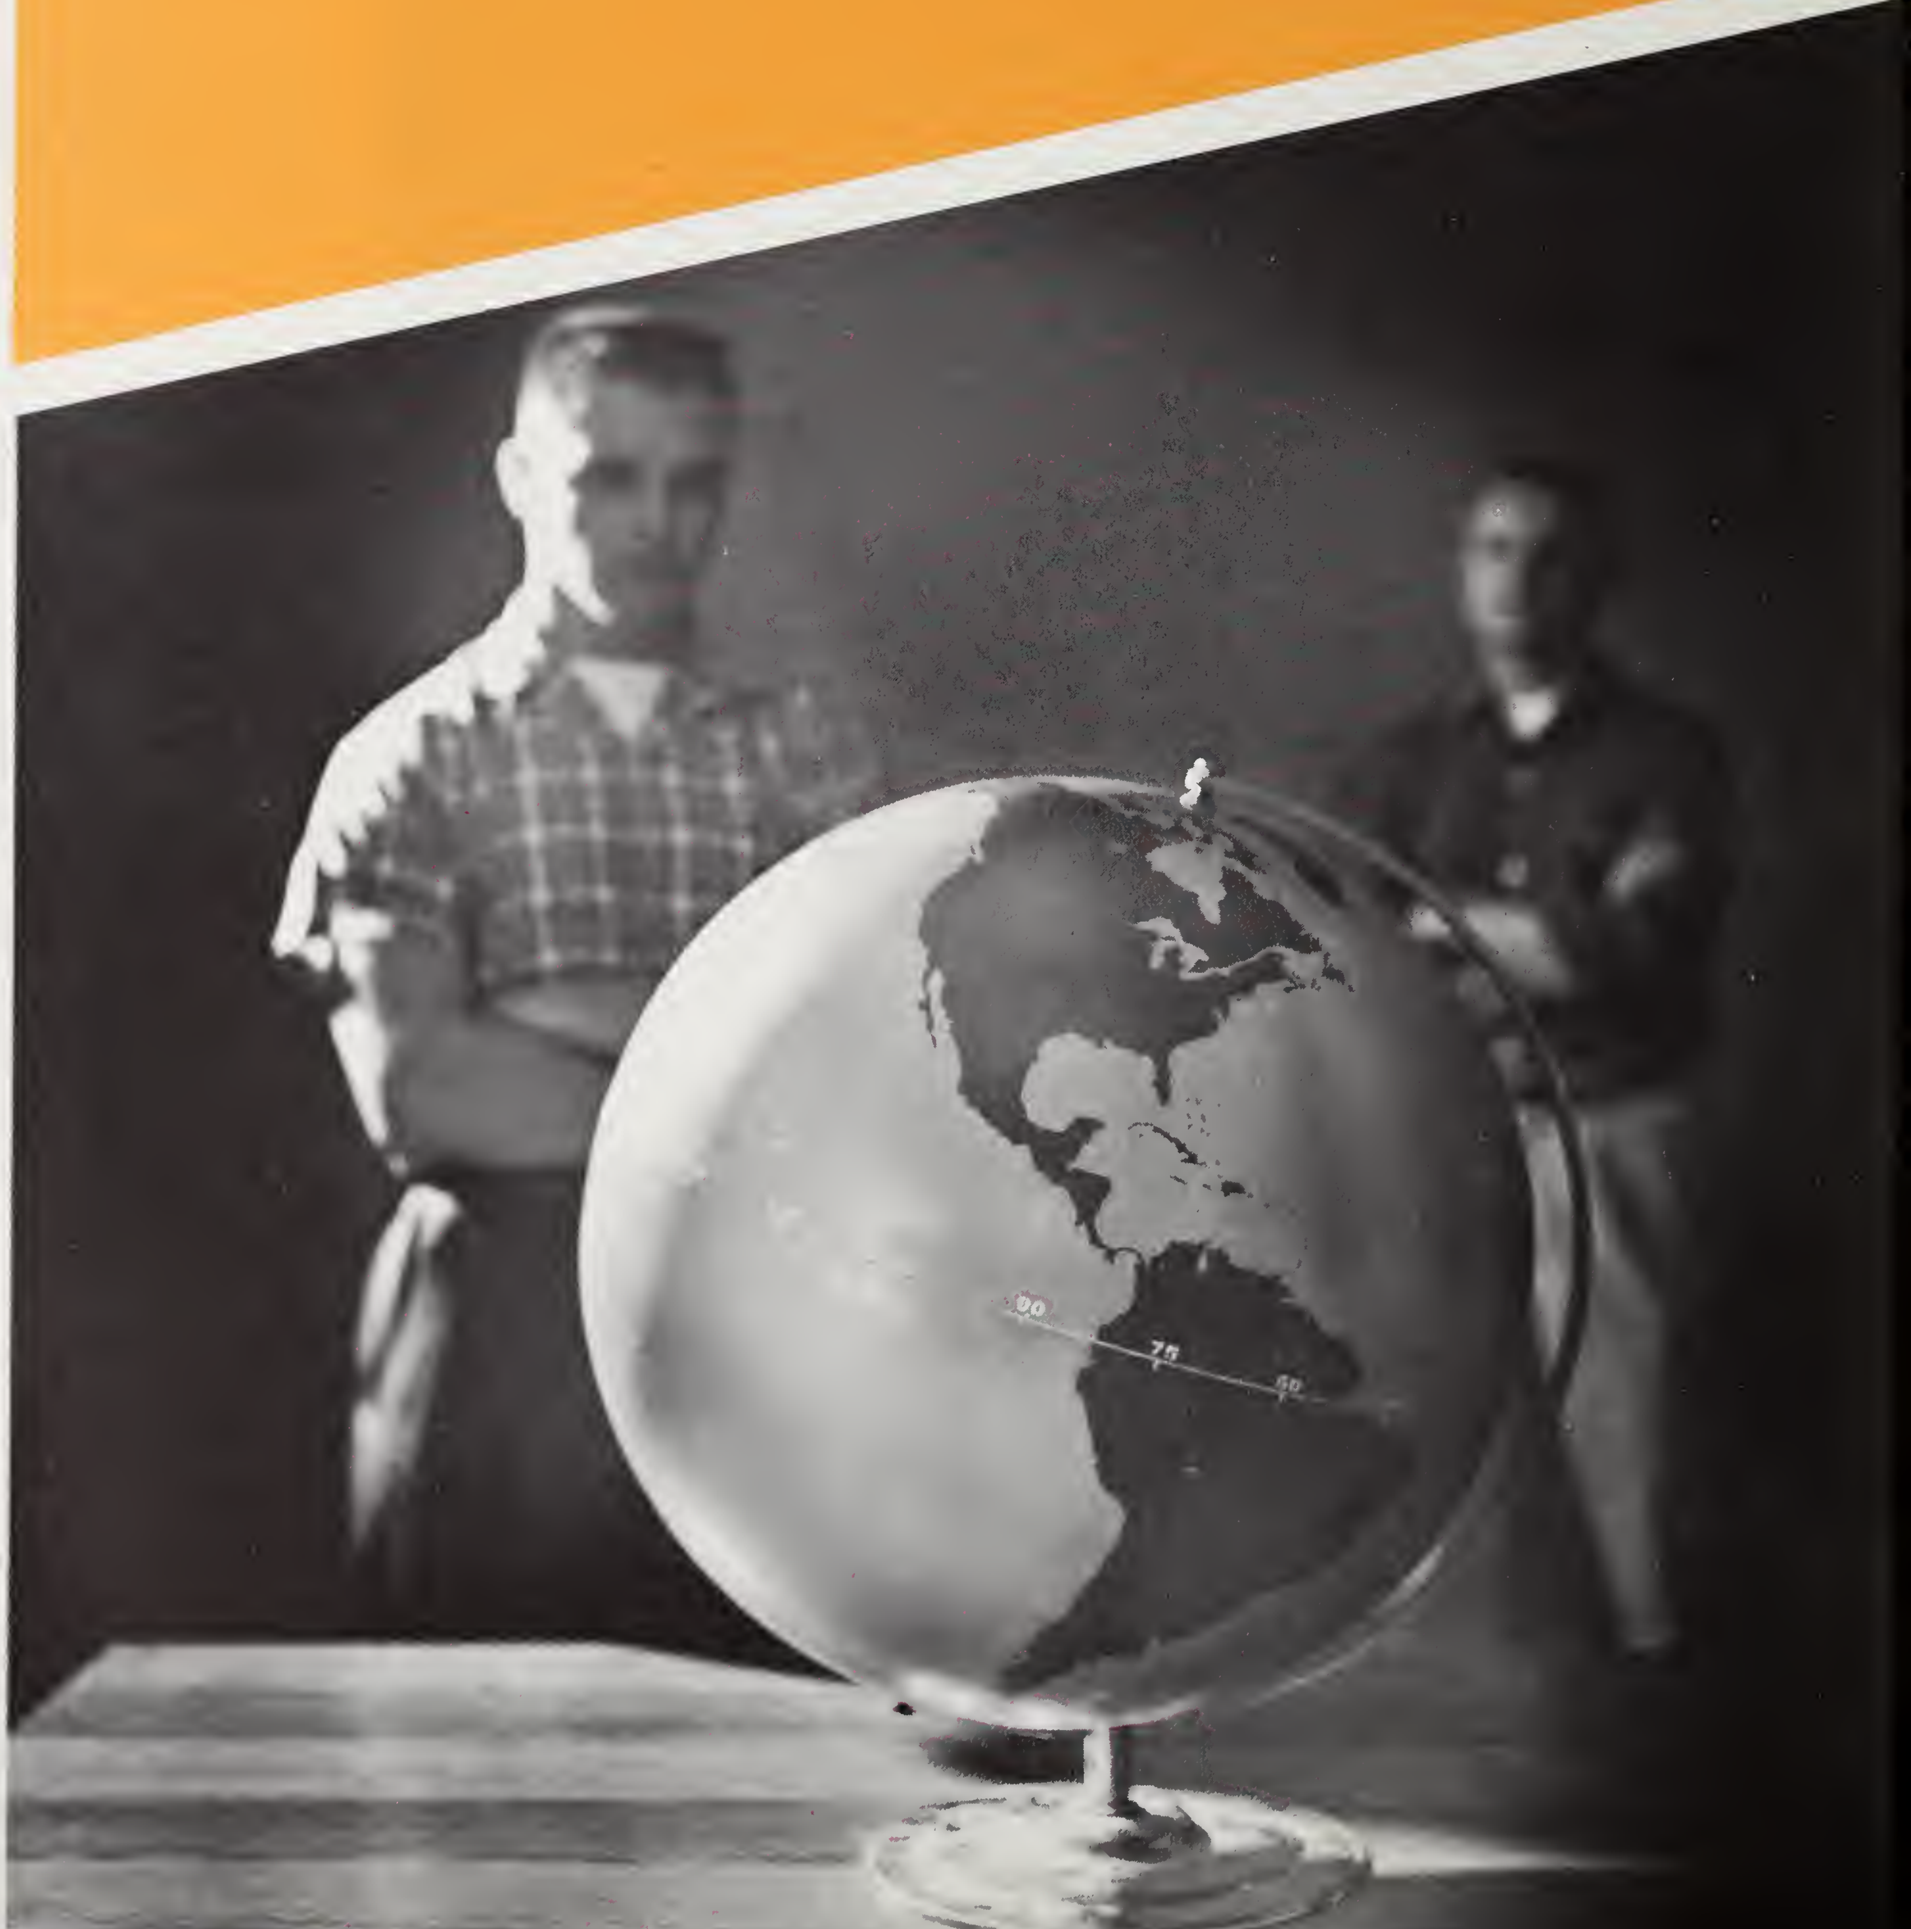
CLASSES



THE BUILDERS

All are architects of Fate,
Working in these walls of Time;
Some with massive deeds and great,
Some with ornaments of rime.

In the elders days of Art,
Builders wrought with greatest care
Each minute and unseen part;
For the Gods see everywhere.

Let us do our work as well,
Both the unseen and the seen;
Make the house, where Gods may dwell,
Beautiful, entire, and clean.

Build today, then, strong and sure,
With a firm and ample base;
And ascending and secure
Shall tomorrow find its place.
— *Henry W. Longfellow*

SENIOR CLASS OFFICERS

PERSEVERANCE
Fancy thou not, though weary, as if won
The Journey's End when only just begun;
For not a Mountain Peak with Toil attain'd
But shows a Top yet higher to be gain'd.
Wherefore still Forward, Forward!

Confucious say: Money is like manure — no good unles

Chinese Auction brings the Orient to MSC to earn money for scholarships by auctioning everything from "slave labor" to "take a chance."

For the seniors it has been a long road — one darkened by frequent small disappointments and highlighted by small or greater achievements. And it is these achievements which will linger longest in the minds of the 1960 graduates. For sixteen years or more they have attended school. Now they have reached a destination, a milestone in their lives. There have been tests flunked, deadlines missed, projects finished late. All this is now remote and the sometimes unpleasant memories of these will fade. The lasting benefit will arise from the over-all knowlelge attained, the general information retained. And of the non-scholastic aspect of college what will remain?

Early in one's college career comes the traditional trek up to the "M" to brighten the symbol of MSC with the promise of rewarding years ahead.

Mornings and afternoons throughout the four years are taken up with scholastic preparation for one's chosen profession.

During the weekends, time is taken from the usual study routine to meet people in a relaxed atmosphere.

Any morning or afternoon will find students making use of the facilities at the college library to delve deeper into the many facets of their chosen curriculum to gain a broader background.

Evening comes and students and faculty join together to dance to soft music under dim lights.

Certain evenings during the winter are spent at the field house cheering the Bobcats on to victory.

It will be the memories of cold early-morning climbs to the "M," the first weeks away from home among strange but friendly fellow students, the joy of basketball games won, the thrill of initiation into an honorary or comparable organization. These are the things which will lighten the years ahead as college falls behind to become a distant glimmer or is viewed through the eyes of a son or daughter. And through *all* these phases of college life — the classes, the studies, but even more important, through the socialization and fraternization achieved within the myriad of campus activities — will come the strength and ability to build a life of lasting value on the foundation derived in college.

Late into the night students toil over their books to gain the required knowledge to prepare for their coming careers.

A new day dawns with long awaited graduation — a new morning to use the learning accummulated throughout the four glorious years of MSC.

This year, for the first time in many years the senior class sponsored a project financed entirely by the seniors themselves. This project was a marquee or lighted sign to herald various Montana State College events including dramatic productions, athletic contests, fieldhouse events, and special campus activities such as Homecoming and High School Week. Because it was financed entirely by the students and because it was designed and built exclusively by the seniors (Jim Christensen and Dix Shevalier, Architects), this project is unique. In addition, it is the largest project, both physically (24 feet high, 5 x 15 feet at the base, $1,000-1,200) and financially that has ever been attempted by any previous class. Not only is their project unique, but the senior class this year reactivated a tradition of an annual Senior Prom, an activity neglected on campus for the past thirty years. Supplementing the usual senior breakfast, the seniors this year instigated a banquet preceding the Senior Prom. This provided a final opportunity for the seniors to assemble as a group before graduation.

OPPORTUNITY

There is a tide in the affairs of men,
Which, taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows, and in miseries,
On such a full sea are we now afloat;
And we must take the current when it serves,
Or lose our ventures.

LEADERSHIP

WORTH

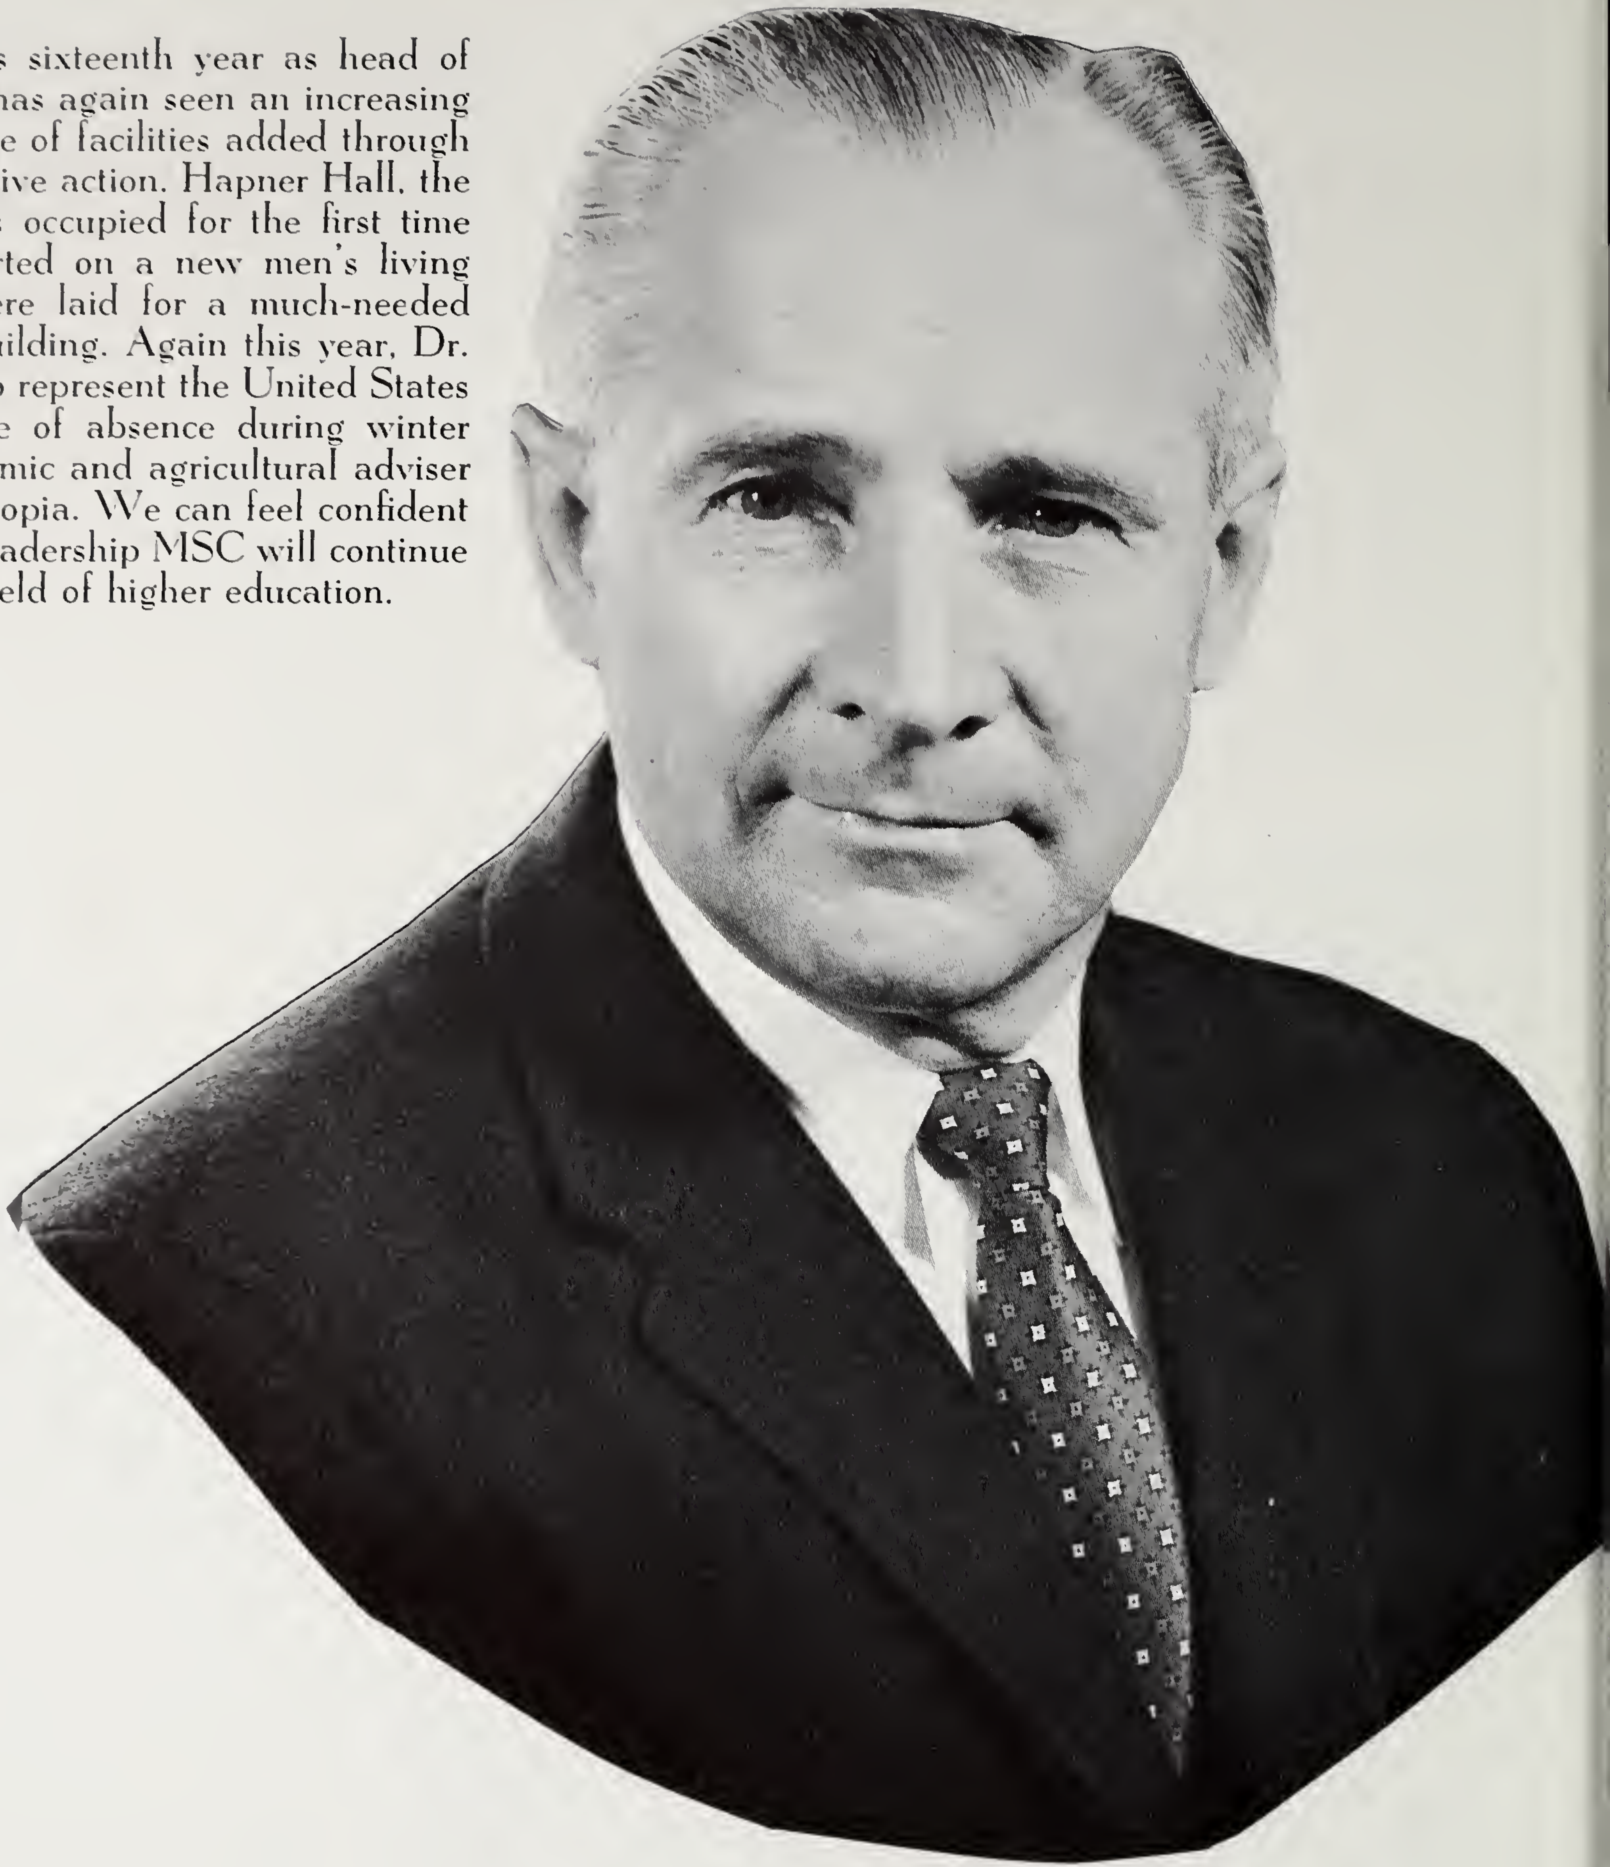
It is not what the world gives me
In honor, praise or gold:
It is what I do give the world,
So others do unfold.

If by my work through life I can
Another soul unfold,
Then I have done what cannot be
Made good, by praise or gold.

One tiny thought in tiny work
May give a great one birth,
And, if that thought was caused by me,
I lived a life of worth.

—Richard F. Wolfe

Dr. R. R. Renne, in his sixteenth year as head of Montana State College, has again seen an increasing enrollment take advantage of facilities added through his foresight and progressive action. Hapner Hall, the new women's dorm, was occupied for the first time this year; work was started on a new men's living residence; and plans were laid for a much-needed addition to the library building. Again this year, Dr. Renne was called upon to represent the United States abroad and took a leave of absence during winter quarter to serve as economic and agricultural adviser to the government of Ethiopia. We can feel confident that under his excellent leadership MSC will continue to make progress in the field of higher education.

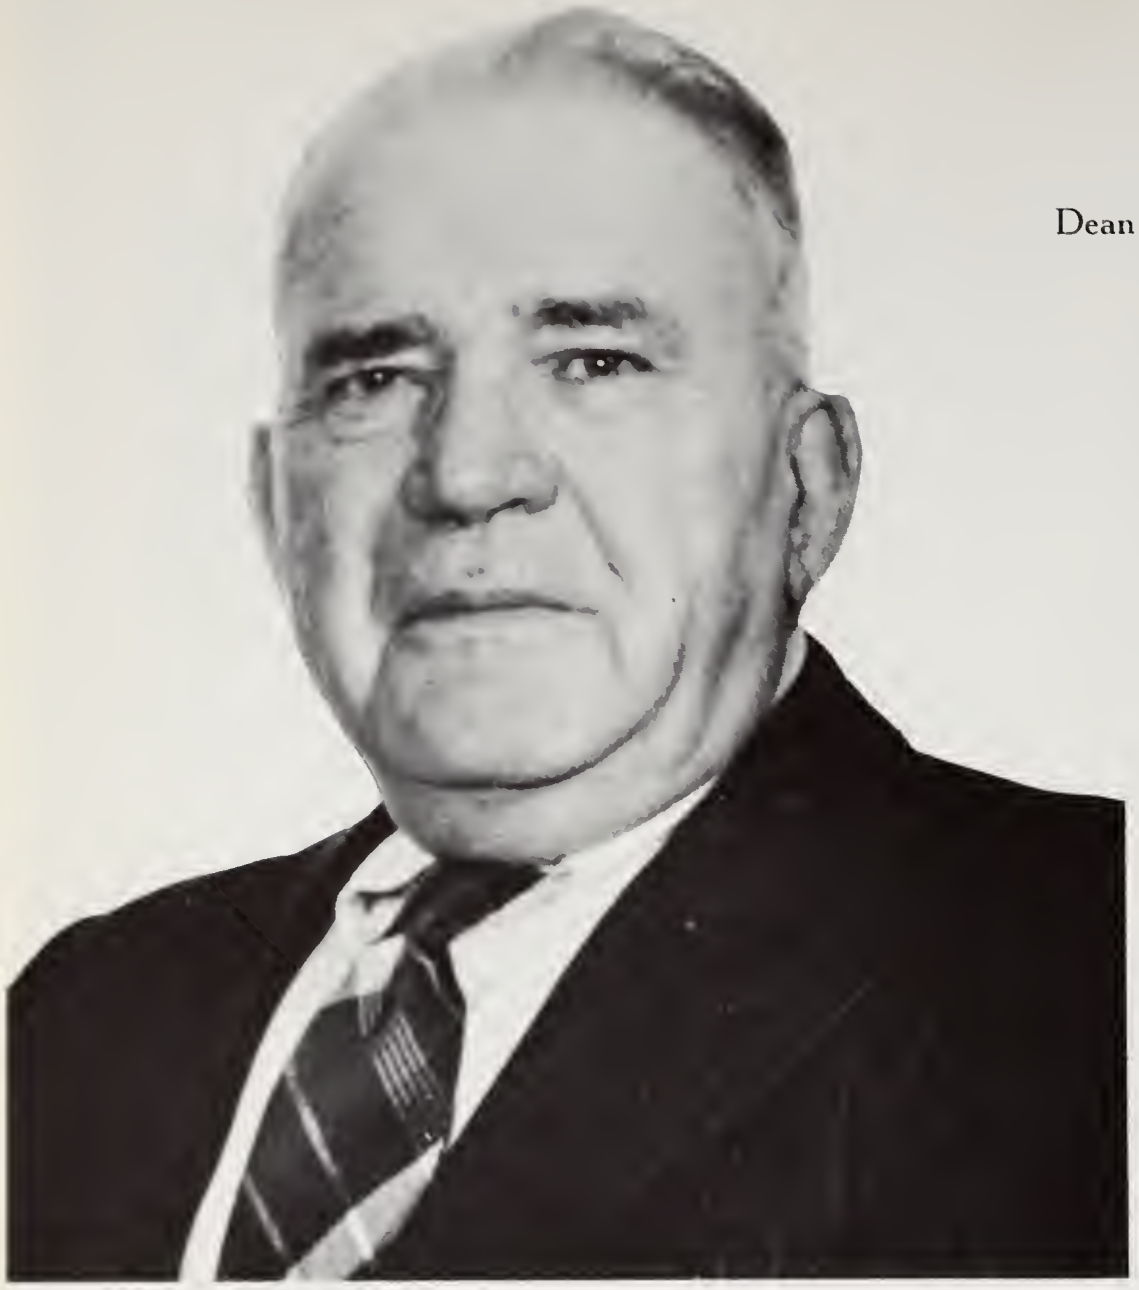


THE PRESIDENT

Val Glynn, Dean of Students, because of his remarkable ability to carry out the many duties of his position with competence and efficiency, and his willingness to help individual students with any problems, has become a favorite campus figure. Both faculty and students respect this man who can handle problems and smooth out difficulties with diplomacy and ease. Dean Glynn works closely with the students to enable them to have an effective and progressive student government.

In the seven years that Dean Esther Brown has served as adviser to the women of Montana State College, she has earned the reputation of one who is always ready to help out with student problems and does so with efficiency and understanding. She works to guide the women students in their organizations and activities and carries out the many services of guidance counselor, adviser, and Dean with exceptional administrative abilities.

STUDENT ADMINISTRATION



Dean Gaines

The efforts of these men and women, carrying on their duties behind the scenes, insure the efficient and effective operation of the functioning of the college. Their responsibilities include maintaining records, coordinating the many school facilities, and supervising the various offices. The effectiveness of their work is shown by the skillful organization of all school-affiliated services.

The state Board of Education and three local College Board members comprise the Board of Trustees of Montana State College. Their duties include deciding policies, limitations, and procedures, and striving for the betterment of the college. Their work is efficiently carried on in accordance with the goal of progress and advancement for MSC.

MSC's GROWTH

As another year comes and goes we find ourselves experiencing the situation of a local increase in population, which means that MSC is continuing the precedent of enrollment increase set over the last decade. If this increase is similar to the predicted increase, the enrollment of MSC should attain or surpass 8500 by 1975.

This increase can be attributed to at least four causes. The most apparent cause is increasing birth rates. After 1944 the birth rate declined slightly and then skyrocketed. By 1975 Montana's college-age group will have increased by more than 23,000 — a 36% change over 1959. This increase is the largest factor in the increased college enrollment.

Another aspect to consider is the rising educational level. In the specialized world of today it is becoming apparent that a college training is becoming more necessary every year. In the period from 1940 to 1958 the percentage of Montana's college-age group who are attending MSC has increased from 4% to 9.5%.

As the number of persons attending college increases, the number attending public colleges is increasing at a faster rate than the number attending private colleges. During the period 1950-1958 in Montana, private college enrollment increased by 19% while public college enrollment increased by 45%.

The final factor affecting MSC's enrollment increase is the accelerated graduate program. This increase has come about since the additional fields have offered a greater range of graduate work. By 1975, 10% of the student body will be graduate students if the graduate enrollment increases at the same rate that it has been, while only 3% were in graduate study in 1940.

It has become apparent that the whole program at MSC is expanding. Will the building expansion keep pace with the enrollment increase? Looking at the buildings on campus today, we wonder if we can actually absorb the expected increase of students into our university unit. The answer lies in the acceleration of the building program.

Many of the newly constructed buildings have been financed through student funds.

In the near future MSC will need many more buildings. The most pressing needs at the present time are a new chemistry building, new library addition, and a new agricultural engineering and industrial arts building. The new agricultural engineering and industrial arts building would replace the temporary barracks constructed during the First World War and now housing these departments.

We will have to work with continuing efforts to insure our readiness for such an increase in enrollment. Our student capacity will have to be stretched and then doubled. Our young university is already feeling growing pains and will even more so in the future.

In the next five years MSC has the time in which to get ready for the rapid increase which will occur as post-war babies reach college age. Whether the college will have the resources equal to the task will depend very largely upon the vision and determination of her friends.

TEAM WORK

It's all very well to have courage and skill
And it's fine to be counted a star,
But the single deed with its touch of thrill
Doesn't tell us the man you are;
For there's no lone hand in the game we play,
We must work to a bigger scheme,
And the thing that counts in the world today
Is, How do you pull with the team ?

ASMSC

Student Senate, administrator of student business, meets weekly to work on the business at hand. It is these students, representatives of all the organizations and activities on campus, who play a real part in student government. Of prime importance to every student, the activity fees of nearly $140,000 are budgeted for and given to the respective activities according to a planned program based on yearly need. Following President Eisenhower's "jet-age diplomacy," the '59-'60 Student Senate journeyed to Missoula to discuss mutual problems concerning discipline at the Grizzly-Bobcat games. Topics discussed in Senate meetings are interesting to all students and may vary from Homecoming conduct to the ratification of the constitution of a new club on campus. It is these leaders on the campus today who will be the leaders of industry, politics, and religion in the nation tomorrow.

Ed Gossack, Vice *President of ASMSC*

Arjay Godston presents a new plan to Student Senate as members show disbelief, humor, interest, or boredom.

Composed of the Commissioners and various campus student officers, Student Senate works as a single unit for the good of the school. Perhaps one of its greatest functions is the maintenance of Traditions Board. The members of this board are the "live wires" of the campus who are most interested in promoting school spirit and are appointed yearly by the Commissioner of Demonstrations. Events promoted by this group include pep rallies, bonfires, and the spring "M" Day and the selections of twirlers and cheerleaders. Chief among this board's activities is the enforcement of the traditional wearing of Frosh beanies each fall. These traditions are followed regularly and the school would lack much without them. This group plays a major part in keeping them alive.

STUDENT FACULTY

Student Faculty Committees represent those organizations on campus that directly concern the majority of students. These committees promote the cooperation of students with the faculty. The gripes, comments, and constructive criticism brought up by the students are taken to their source by these committees. Committee members then take these suggestions to Dean's Council or Student Senate for proper action.

To Our Readers

Go, little books, whose pages hold
This garnered year in loving trust;
How long before your blue and gold
Shall fade and whiten in the dust ?

Deal gently with us, ye who read !
Our largest hope is unfulfilled, —
The promise still outruns the deed, —
The tower, but not the spire, we build.

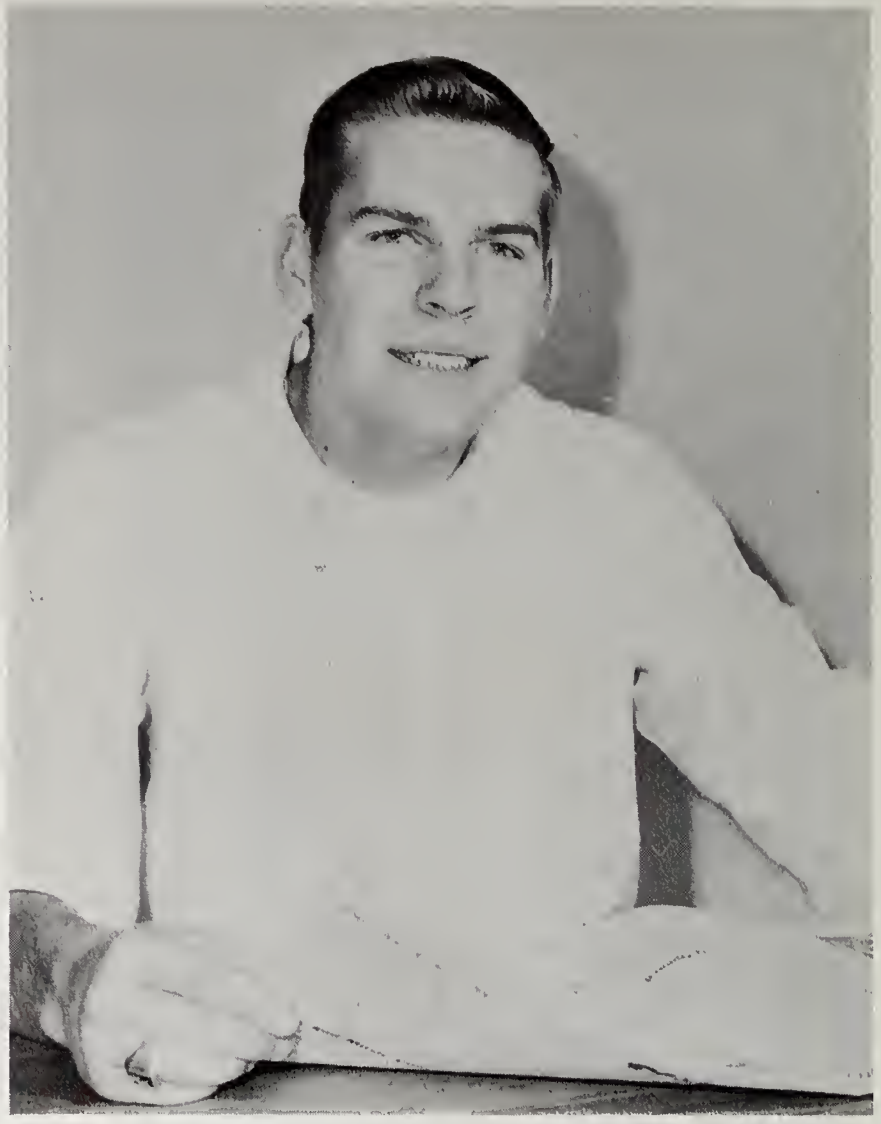
Tom Olson
Editor



Montana Exponent is the weekly student newspaper of MSC and a member of the Associated Collegiate Press. The staff is composed of student volunteers serving on either the editorial or business staff. The publication is governed by the editorial board consisting of the editor-in-chief, editors of sports, news, society, features, and the associate editor. A special annual feature of the Exponent is the Froshponent, an issue put out entirely by freshmen staff members.

The Alpha Gam's started off the year right by winning first prize for their homecoming float and third prize for their house decorations; this tied them for grand sweepstakes. Carrying out their traditions such as International Reunion Day, the Pledge Chocolate Day, and the choosing of their Alpha Gam Man, the AGD's continued previous innovations. A snow ball fight with the Sigma Chi's and a water fight with the SAE's and the Pi Kaps added excitement to the year, while their new lighted sign added illumination to their front door.

With a membership of ninety per cent agricultural students, the local Alpha Delta chapter of Alpha Gamma Rho by no means confines its activities to the farm. The major project this year was the construction of their new house near campus. Boasting many active campus figures, Alpha Gamma Rho is represented in all campus activities. The annual Pink Rose Formal was held successfully during winter quarter and the spring party was termed by members, "a real blast."

The Sigma Beta Chapter of Chi Omega at MSC was the second Greek woman's organization to be founded on campus when it was brought here in 1920. Since then these girls have held their share of honors, including the coveted five-year speaker's award, presented to their past president, Jan Leslie, last spring. With their usual vim and energy the Chi O's again showed their versatility in all campus activities.

In addition to other notable campus personalities, the Kappa Sigs this year claimed Duke of Fangs and the ASMSC President among their members. A tight-knit group, they were first in scholarship during fall quarter. Their Stardust Ball, held this year at the Sub and made unique by its elaborate and original decorations, was highlighted by the crowning of Kay Moe as Stardust Girl. And of course they are well-known for their self-appointed mascot, Icard, who is, according to the Kappa Sigs, "the laziest dog ever."

Sponsoring their annual Yukon Days again during fall quarter, the Lambda Chi's sprouted many a prodigious growth of beard. At their White Rose Winter Formal, Alice Lamont received the coveted title of Crescent Girl. In friendly "functions" with the AGR's, they participated in dorm busts, haircuts, and early-morning egg-fries. With "Pike," their bobcat, for mascot and "Miss Carriage" a (1928 touring bus) for conveyance, the Pi Kaps were seen frequently this year. During Pi Week the Pi Kaps raised $700 for the March of Dimes and crowned Barbara O'Neil Pi Week Queen. Their Dream Girl for this year, announced last spring, is Patsy Fitzgerald. A motorized toboggan party, a formal spring party, and an unscheduled dorm bust by the pledges, kept life at the Pi Kap house, to say the least, interesting.

Sigma Alpha Epsilon became sponsor of a related campus organization this year when it introduced the group known as "Little Sisters of Minerva." Girls chosen for membership in this group were sisters of SAE's or had an active interest in the fraternity. The Fabulous Four, famed pantomimers, provided entertainment for numerous functions. The Sig-Alph Olympics, the fall Pajama Party, and the Mother's Day function all were carried out with traditional gusto by the house. Mrs. Orman, or "Mom," as she is known to the SAE's, still claimed the distinction of being the only full-time fraternity housemother at MSC.

In everything from a Christmas party for needy children to their Sigma Chi Alumni reunion, the Sigs showed their usual ready spirit. In the Sigma Chi - Pi Phi pledge ruckus (at which it is said the Sigs were soundly defeated at football) the members displayed great fortitude. Their candidate, Bill Poppie, was the Ski King during Winter Carnival and their leadership was felt throughout school from athletics to Student Senate positions.

According to tradition, the Sigma Nu's presented their usual successful Barn Dance and carried out a lively White Rose Formal winter quarter. They once again helped decorate Main Street at Christmas time in conjunction with the City of Bozeman. Their black jackets charactarize these fellows wherever they are seen. Reviving long tradition, the Sigma Nu Follies appeared again this spring.

Chess is a match of skills between gentlemen in the finer circles.

Sigma Phi Epsilon, the youngest fraternity on campus, was brought to MSC on May 19, 1959. The chapter house is located in Quad A and is characterized by the bright red front door, a national chapter tradition. The Sig Eps held functions including a Diamond Princess Ball winter quarter and impromptu social hours with neighboring sororities. The Sig Eps were fortunate to have as weekend hostess and housemother, Mrs. Henry Gay of Bozeman. The man of Sig Ep is easily spotted by his purple and red jacket, the theme colors of the fraternity.

The Men's Co-op continued to prosper at MSC this year as an example of independent men who work and cooperate for a mutual benefit. This cooperation is exemplified in all Co-op activities, among which was their traditional Western Party held winter quarter. At Homecoming, Men's Co-op won first place in the men's float division and second place for men's snow sculpture during Winter Carnival. In the spirit of participation, the Men's Co-op strives to serve all independent men searching for good food and fellowship.

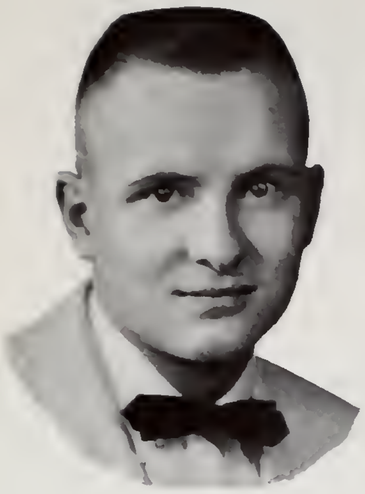
STAGGER INN



Don Rossmiller
President

Charles Crane
Vice President

The Stagger Inn living group was organized at MSC in the fall of 1959 for the sole purpose of promoting extra-curricular and social activities. (Yet when all else failed, members did study to maintain a grade point average — minimum requirement for membership, .37). Although such rare, enforced study did create inconvenience, members still found time to take part in and donate regularly to Bridger Club, Beaumont Club, Corner Club, and numerous other equally worthwhile organizations. On several occasions throughout each quarter, the Stagger Inn-mates held functions within the house, stressing the skillful use of the *Bar Tender's Guide* and the cultural appreciation of stereophonic sound.

CLUBS

There is a destiny that makes us brothers;
None goes his way alone:
All that we send into the lives of others
Comes back into our own.

I care not what his temples or his creed,
One thing holds firm and fast —
That into his fateful heap of days and deeds
The soul of man is cast.

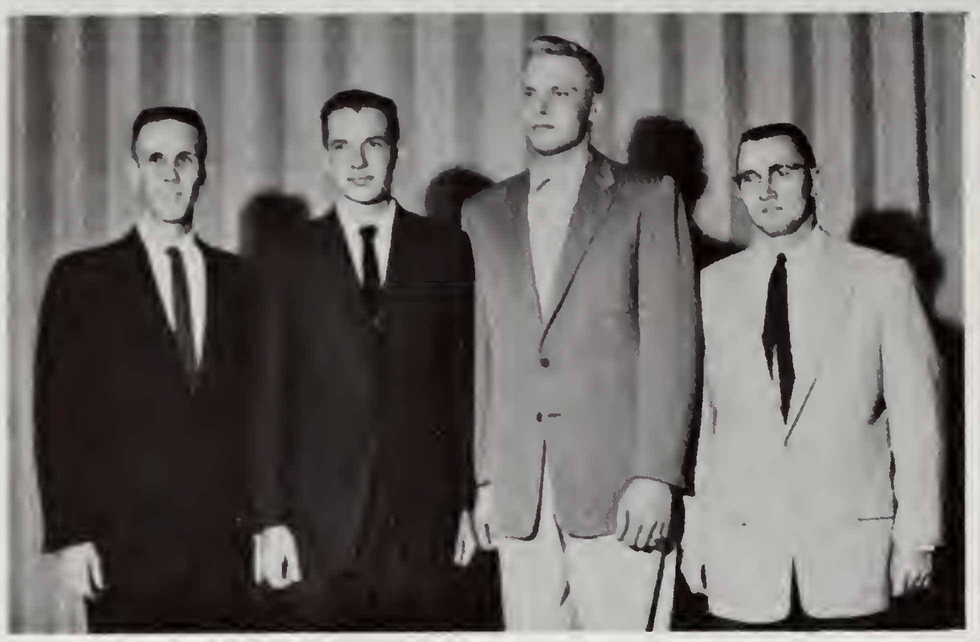
Ag Club



OFFICERS — *Left to Right*: David Kimball, Pres.; Charles Crane, V. Pres.; Leif Larsen, Secretary; Harold Farris, Treas.

Holding regular meetings during dinner hour, Ag Club is one of the largest and most active clubs on campus. Founded for the improvement of American Agriculture, this group includes in its list of activities the Little International Stock Show each spring and four issues yearly of the College Farmer. Ag Club traditionally sponsors the Harvest Ball, which is the first formal event of Fall quarter.

Members of Agriculture Club have opportunities to learn new and improved techniques for the care of their animals.

Ag Engineers

Always alert to possibilities for campus improvement projects and new developments in agricultural equipment, is the MSC chapter of Ag Engineers. At their bi-weekly meetings and semi-annual smokers, local and outside speakers present the members with new products and procedures in their field. Active socially as well as professionally, the Ag Engineers sponsor quarterly all-school mixers and an annual field trip for members.

AIA

Affiliated with the Montana Chapter of the American Institute of Architects, the local student chapter of A. I. A. helps the architectural student prepare himself for entry into the profession. Through this organization, professional quality is added to the regular architectural class work. Outstanding in each year's activities for this group is the annual inspection field trip taken throughout the Northwest during spring vacation.

AICE

Encouraging professional development of its members and promoting chemical engineering at MSC are the chief aims of the American Institute of Chemical Engineers on campus. Guest speakers and annual field trips highlight the year's activities. In addition to scheduled educational and social functions, the AICE strives to secure employment for its members upon graduation.

AIEE-IRE

Joining together on campus to form one organization are the American Institute of Electrical Engineers and the Institute of Radio Engineers. Outstanding among their activities is a contest each spring in which members compete with one another in the writing of technical papers. Outside speakers give members practical tips and present the latest in engineering advances to this group at scheduled meetings.

AIIE

Under the guidance of their president, Regis Muller, the American Institute of Industrial Engineers again this year sponsored an inspection field trip throughout the Northwest for their Junior members. In addition, they held AIIE all-school mixers and scheduled their annual banquet with an outside speaker in December.

AIIE members spend a share of their time working in Ryan Lab.

ASME

Abbreviated as ASME, the American Society of Mechanical Engineers is another of the campus professional organizations for students in a selected field. Under the direction of their president, Walt Ware, the purpose of this group is accomplished through outside speakers and technical movies at their regular meetings. In addition to sponsoring one all-school function each quarter, the ASME highlights its year's activities with an annual spring inspection trip.

Judging of sheep is one of the tasks performed by members of Animal Industry Club. These woolly creatures are groomed and ready for the outcome.

Open to all interested faculty and students majoring in Animal Industry, the AI Club contains many facets of interest. Its annual service project is dedicated to helping with schools held for farmers and ranchers througout the state who are interested in modernizing their methods. Each year in "Little I" the AI Club sponsors a livestock judging contest, while on a lighter vein they cooperate with the Montana Wool Growers Association in the annual Miss Wool contest.

Canterbury serves as a church away from home for Episcopal students on campus. Along with Friday morning communion and Sunday evening discussions, Canterbury has several study groups. This year's study groups included a study of Christian evangelism and the book of Revelations. It is Canterbury's purpose through meeting together to become more effective Christian witnesses at MSC.

Range Management Club

A member of the American Society of Range Management, the local collegiate chapter was this year headed by Ronald Davis. Quarterly smokers at which faculty advisers and outside speakers participated, and their joint dinner-dance with A.I. Club were the main social events on the Range Management Club calendar this year. In the line of a service project, the R. M. booth at the Winter Fair was sent to the divisional exhibit at Portland.

Geology Club offers students a chance to further their study of rocks and minerals, both local and distant.

Advancing the field of Geology by promoting interest in its practical phases, Geology Club welcomes not only professional geology students but interested amateurs as well. Through rock collection and displays the members participate most actively. Offered practical application of their knowledge about geologic workings, this group took a fall field trip to the nearby and now-famous Hebgen Dam earthquake area.

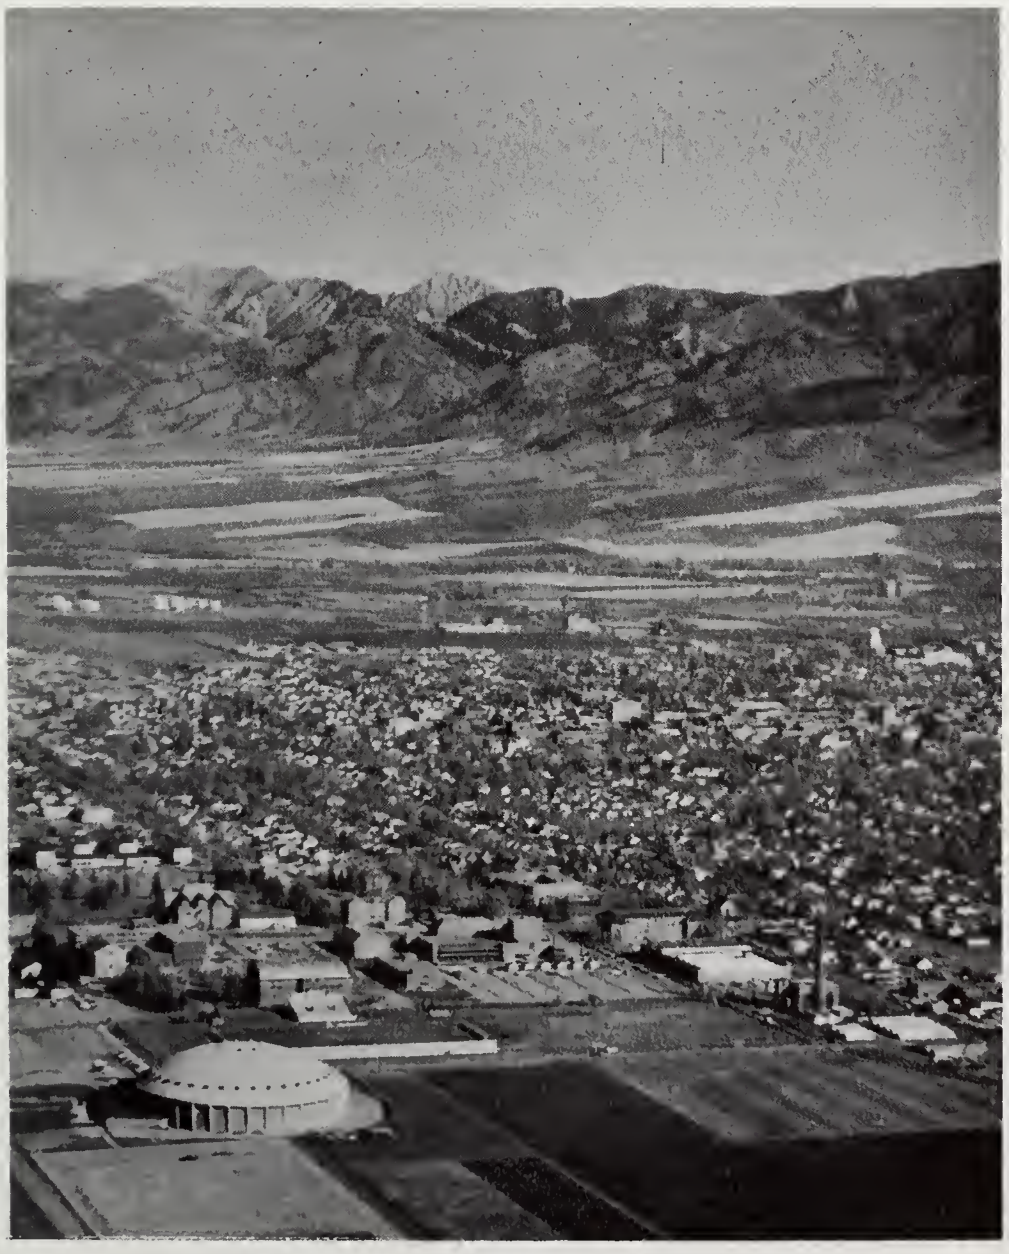
Flying Co-op

A feeling of "sitting on top of the world" is experienced by members of Flying Co-op as they view the city from the air.



Chartered as a regular co-op organization under the Secretary of State, the Flying Co-op's primary aim is to arouse student interest in flying. Students belonging to this club may learn to fly and obtain a pilot's license at the lowest possible cost. Competing with other amateur-sponsored flying groups, the Flying Co-op participates each spring in a nation-wide flying meet at which navigational landings and workings of aircrafts are displayed.

OFFICERS — *Left to Right, First Row*: Mary Lou Horak, Reporter; Myron Deibel, V. Pres.; Ardie Jarrett, Secretary. *Second Row*: Joan Birtic, Song Leader; Steve Hadnagy, Historian; Jim Quanbeck, Pres.; Nancy Jo Mitchell, Recreation Leader.

Founded for the purpose "To Make the Best Better," the 4-H Club on campus carries out this theme in all its activities. Promoting International Farm Youth Exchange, national 4-H Club Congress, and acting in a service capacity during High School Week and Winter Carnival, the members work together for fellowship and personal betterment. Its membership is composed of all former interested 4-H Clubers and is active socially as well as through service projects.

4-H Club on the college level provides time for students to further their 4-H interests and make new friends.

FFA

This local collegiate chapter of Future Farmers of America is organized primarily to receive practical insight into the problems confronted in Agricultural Education. Through participation in a State Leadership Training School, FFA conventions (both State and National), and FFA sponsored judging contests, members gain knowledge applicable to their work after graduation. Socially, FFA boosts an annual smoker, a yearly dinner-dance, and college intramural events.

In preparation for their State Convention, FFA members practice identifying hand tools.

Home Ec Club

Boasting MSC as the home of the first Home Economics Club in the nation, the local college chapter of Home Ec. club has grown to be one of the largest and most active clubs on campus since its founding, sixty-four years ago. Members stress the importance of Home Ec. principles in art, industry, and use in the home. Through their quarterly provision of coffee at registration, worthy members are granted scholarships to continue their education in Home Economics.

Candies, cookies, and numerous delicacies are prepared by Home Economics Club members in the newly-installed cooking units in Foods Lab of Herrick Hall.

M Club

The M Club sells popcorn and runs a concession stand at all sports held on campus. Their main project this year was assisting each member in buying a Letterman's jacket. M Club is open to men who excel in sports at MSC. All M Club members have lettered in one of the many sports on campus and have maintained a high scholastic average. Initiation is held annually in the spring.

Under the direction of Mrs. Klaus, the faculty adviser, this scholastic honorary works to further nursing education. The MSSNA is composed of four divisions, one at MSC and one at each of the hospitals affiliated with the school. Projects this year consisted of selling cards and candy at Christmas and presenting educational programs each month at their meeting. Two scholarships are awarded by MSSNA each year, one to an outstanding freshman member, and the other to an outstanding nurse of any class.

Pre-Med Club

The Pre-Med Club, which has recently been reorganized under the direction of Mr. Watling, stresses one goal throughout its program. This is to promote education and general knowledge in the field rather than mere limited training. Interest in the profession and related fields is effectively sparked through speakers and films at Pre-Med Club meetings.

There is many a battle that's yet to be won,
There is many a glorious deed to be done.
The world is still young! For the youth at its door
There are tasks some shall do never dreamed of before.
It is not an old world, worn and wrinkled and gray,
It's a world that is being reborn every day.
And the youth who stands at the world's open door
Have much to achieve never dreamed of before.

THE COACHES

With Head Coach Herb Agocs paving the way, the battery of football coaches once again led our Bobcats to a good season. Congratulations go out to Herb Agocs, Mike McCormick, Tom Parac, Joe Berry, and George Marinkovich for a good season.

Basketball's Dobbie Lambert and Bob Rousey faced a major rebuilding job and came through the season with a better than anticipated record.

Also, congratulations go to Rousey and McCormick for making baseball and track major winning sports on campus this year.

O classmates mine, 'tis football time,
And so we'll soon be cheering;
Herb's team is on the beam;
Their fame you'll soon be hearing.
But win or lose, we must agree,
Good sportsmanship is VICTORY.
When in a crowd, make Agocs proud
That for our school you're cheering!

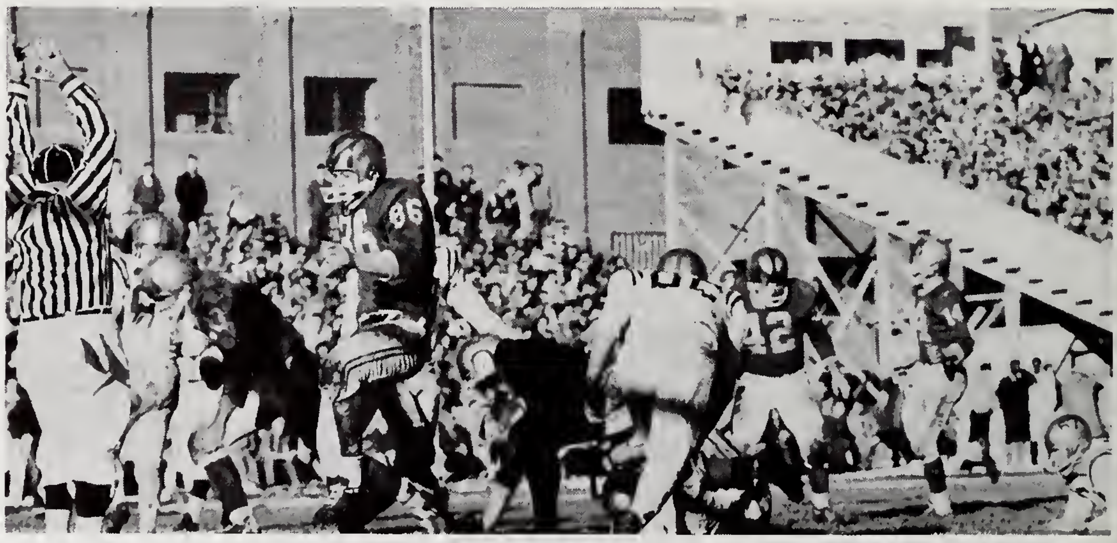
Once again football proved to be MSC's major sport. The Bobcats finished out their roughest schedule in history with a good 6-3 record. The Bobcat team traveled as far south as Arizona and as far west as California to compile this favorable record. The biggest win of the year, of course, was over the University. Now that this tradition of winning has been established, let's continue.

Around to the left, and the ball is on its way down the field for the first down.

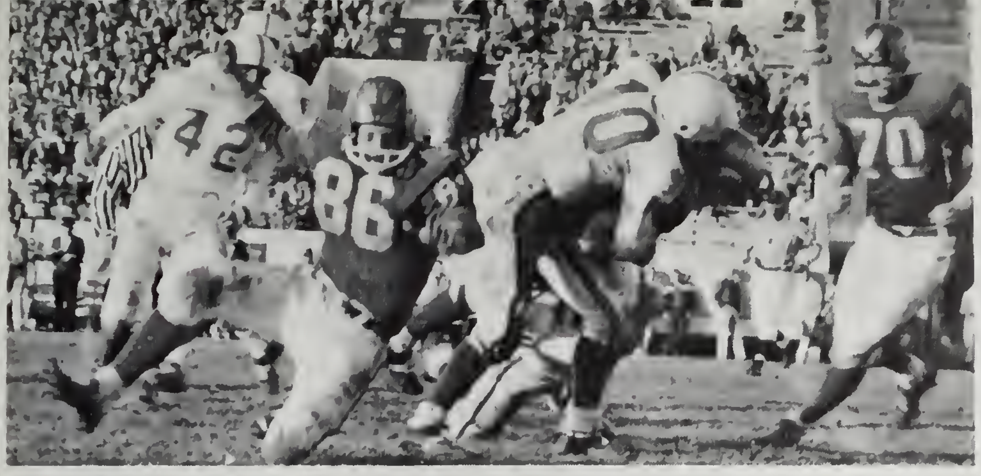
FOOTBALL

Rough, aggressive play and a three platoon system featured this year's edition of the Bobcats. To show the potential of this year's team, professional football contracts were signed by Gene Schilling, Rocco Perciavalle, and Sonny Holland. The three-platoon system wore down many teams by the end of the first half, turning doubtful games into easy victories.

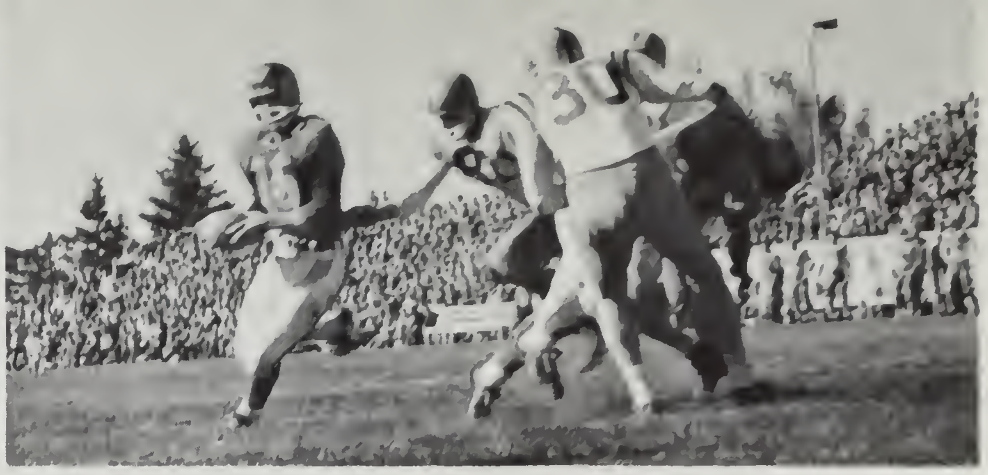
Referees may choose some dangerous spots to stand in front of the on-rushing team.



The Pigskin is passed high in the air, with the hope that it lands in the proper hands.



Rudio plunges on even though he has picked up an MSU passenger.



Around to the right, and Alt is off to make a touchdown for the Bobcats.

The question seems to be, "Where is that football ?"

Montana State brings a man down in his attempted dash to the goal line.

FOOTBALL

A slight interruption, and Alt is off again to complete his run to the goal line.

Student spirit and "spirits" were great controversies this season. Both seemed to be "up" for every game on the home schedule. Despite the differences in opinion over using the latter as a stimulus, Bobcat rooters failed to see their team lose at home this year.

Surdam is anxious to get back in the game to "Beat the Grizzlies."

FOOTBALL

Davies fades back for a pass as MSU's John Lands prepares to stop his plans.

Sonny Holland

This man is undoubtedly one of the best, if not *the* best, in Montana State football history. Some of his achievements include three time Mid-bracket All-American, starring in the West victory in the East-West Shrine Game in California this year. He has signed a contract with Dallas in the new football league. As a freshman he was named first team center in the Rocky Mountain conference. This is the *Montanan's* salute to Sonny Holland, greatest center in Montana State's history.

This year's team was composed of 14 Montana-grown boys along with 12 from Pennsylvania, 5 from Ohio, 3 from Wisconsin, and representatives from California, Kansas, Massachusetts, Wyoming, North Dakota, Virginia, New York, and North Carolina. Truly, Montana State and its Bobcats are becoming well known throughout the U. S.

Coach Marinkovich's Bobkittens experienced one of their poorer seasons in recent years. Injuries hampered the young "Cats" all year. Many of these freshmen will move on to be Bobcat mainstays next year and in years to come. Gaining valuable experience their freshman year, they are now ready for the varsity.

Won 11, Lost 14

Coach Dobbie Lambert came up with two new ball players this year in Bob Bradley and John Bryant. With these two boys the Cats looked like a powerful team at the season's opening. As the season progressed the team hit a slump and nothing could pull them out. Then Bradley hurt his elbow, causing the team to fall down a little more. By the season's end the Bobcats had won 11 games. With the loss of high-scoring seniors Larry Chanay and Andy Matson, and with no assurance of Bradley's return, it looks as if the 60-61 season will be one of rebuilding.

TRACK

Under the watchful eye of Mike McCormick the Bobcat thinclads started workouts March 7 in the fieldhouse. The Bobcat trackmen opened their season at Logan, Utah, against Utah State and Idaho State. They had dual meets with University of Utah, Idaho State, and Montana State University. There was also the annual MSC Invitational meet followed by the Ricks College Invitational.

TRACK

MSC's track team traveled to Logan, Utah, to compete in their first meet of the season. Some of this year's top team members were Jim Roban, shotput and discus; Terry Jensen, mile and two-mile; and Tom Sawyer, pole vault and broad jump. Russ Johnson and Steve Good ran the dashes with Billy Mulcahy and John Bryant backing the team up in the pole vault and 440-yard dash.

The shotput is sent on its way through the air by a mighty push.

Baseball was back at M.S.C. with the start of spring quarter. This year's Bobcat squad was practically all new with the exception of four returing veterans. The season opened April 9, at Montana University with a double header. The Bobcat nine had games with Rocky Mountain College, Carroll College, Eastern Montana, and Montana State University.

Coach Boby Rousey, Assistant Andy Matson.

MSC's baseball squad looked strong in the first two games of the season by romping the University Grizzlies 2-1 and 8-3. Front-line pitching strength was provided by Keith Strandberg and Conrad Strzelczyk, backed up by hard-hitting team mates. This year's team contributed more than its share of spirit in competitive athletics. Due to its popularity, the games were followed enthusiastically by all the sports-loving fans here at MSC.

BASEBALL

After a year's lay off the Bobcat baseballers took to the diamond again with renewed interest. Under coaches Rousey, Marinkovich, and the old pro, Schubert Dyche, the Cats got off to their best start in years. Although plagued by injuries, lack of facilities, and lack of reserve strength, which dimmed the coaches' view of the season, enthusiasm was not altered and base hits came fast and furious. Good pitching was the Cats' big asset with veteran Keith Strandberg and Conrad Strzelczyk showing the way.

Dave Alt, shotstop.

BASEBALL

Due to adverse weather conditions, early spring practice had to be held in the fieldhouse. With the installation of a new batting cage, batting practice was also held in the fieldhouse which was never feasible before. About half way through the season the "Cats" moved into their new ball park behind the fieldhouse. This is the first ball park ever located on campus.

A batting cage made indoor batting practice possible to prepare a winning team.

Snow time brings happy smiles from ski enthusiasts.

This year's ski team, comprised of Captain Flint Taylor, Tom Devine, Finn Flugein, Ken Miller, Paul Renne, and Dick Aho under the supervision of Bob Beck, had another good season. Montana State College hosted the annual N.C.A.A. Ski meet which was participated in by many colleges and universities from all over the United States. Although the Cat skiers were not able to compete, they did an excellent job of running the meet. Spirits were not dulled by the N.C.A.A. ruling as the Cats demonstrated real skiing ability throughout the season.

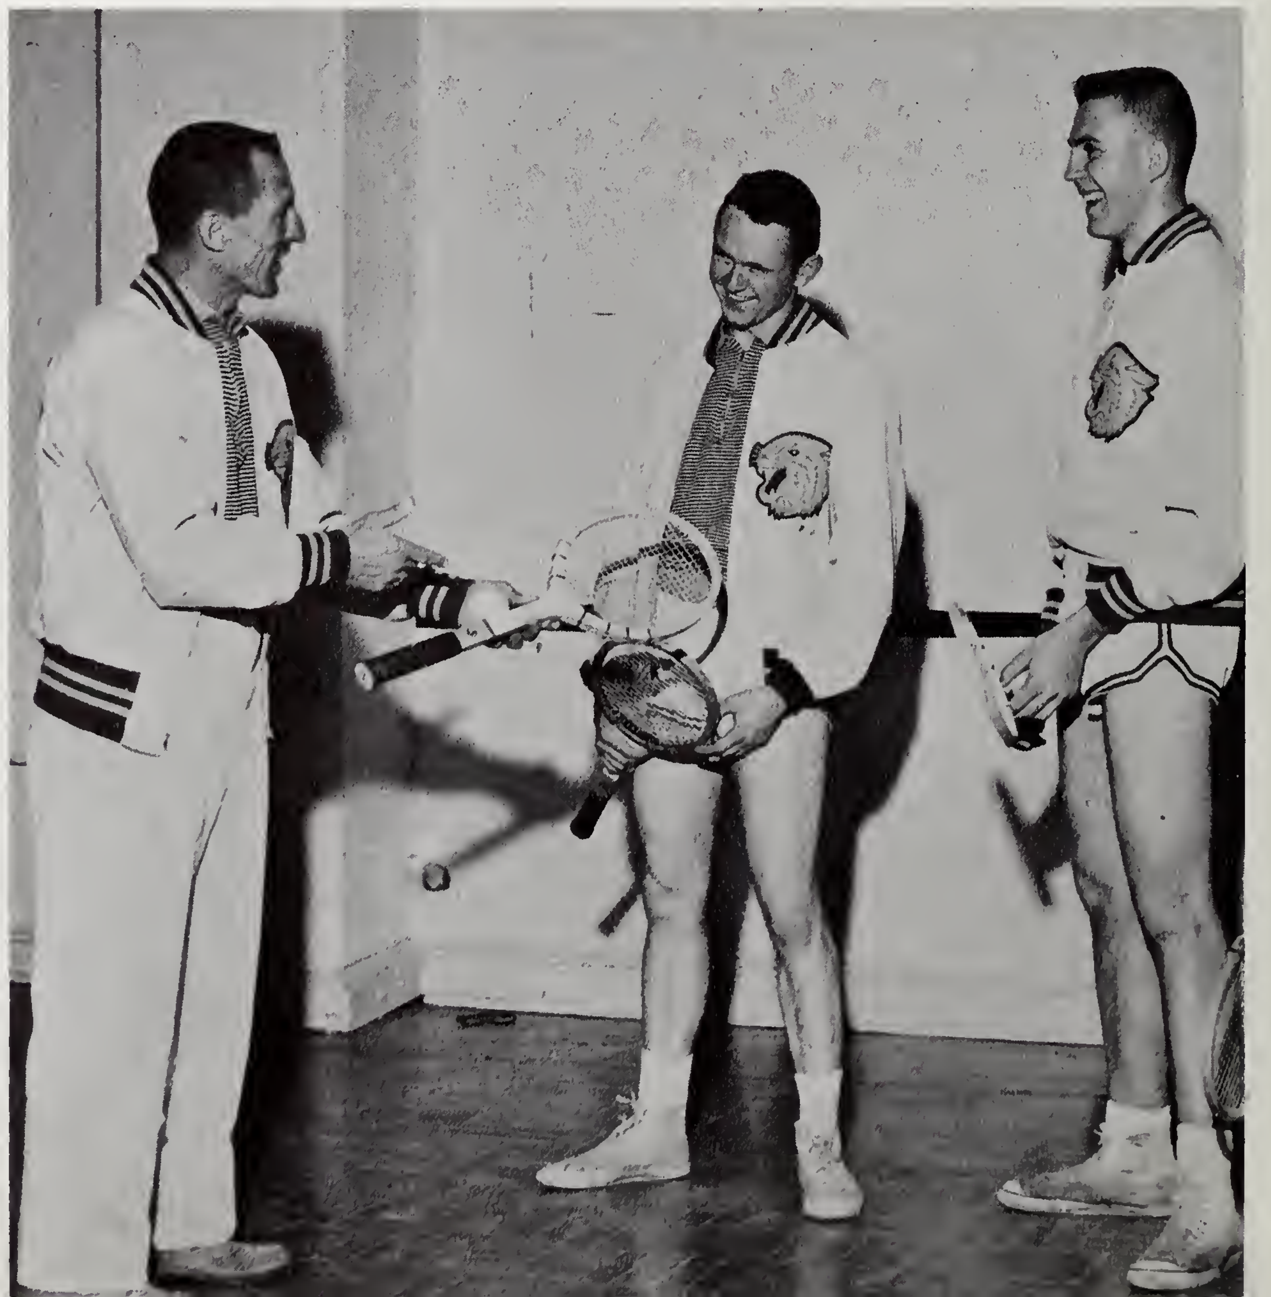
TENNIS

With the installation of the new tennis courts, tennis became a reality at MSC. Interest ran sufficiently high among tennis players that they formed a team, enlisting Dr. Keith Bowen as their adviser. Though lack of experience and practice time hindered these men, we must take our hats off to them and their initiative. We may look forward to tennis as a varsity sport at MSC in the future.

Coach Bowen gives Bill and Dick a few words of advice before they are off for a match.



Style of defense is an important factor in wrestling as well as in boxing.

The 1960 Bobcat matmen lived up to all expectations this year, ending up with a very respectable eight wins against two losses and one tie. The opponent colleges and universities scored a total of 106 points. Honorary captain of the team was Doug Polette with a record of six wins against two losses and one tie.

WRESTLING

Muscles must be in tone when trying to bring that opponent down to the mat.

A special telescopic device helps shooters find the place where the bullet left its mark on the target.

RIFLE TEAM

Classed as the third ranking collegiate rifle team when this book went to press, the Montana State College Varsity Rifle Team was exceeded only by Oregon State and Kansas State. Its 48 victories as opposed to the 3 losses it suffered during the 1959-60 school year were tallied over senior rifle clubs and intercollegiate teams throughout the Pacific Northwest. Included in these victories were three straight wins over the MSU Grizzlies, the Wyoming State Rifle Championship, and the setting of new state records in Wyoming and Montana. This nearly unbeaten year was the most successful one yet for the MSC Rifle Team.

Art Nordling takes a mighty swing at the ball — and there's the ball.

Golf coach, Bob Beck, started working with the Bobcat golfers at the beginning of spring quarter. However, they were hindered in the early part of the season by the unpredictable Montana weather. The Cats participated in meets held at Utah State University, Logan, Utah, and at Montata State University. Utah State and MSU traveled to Bozeman for return engagements later in the season. The highlight of the season was the invitational golf tournament held at MSC, in which the Cats made a good showing of themselves.

Women's organized athletics provide many varied activities for the sports-minded coeds at MSC. There is competition among the Greek and independent teams in the fields of basketball, volleyball, bowling, rifle, archery, and softball. Competition also runs high in individual sports such as ping-pong, badminton, tennis, and golf. Swimming is enjoyed by many at the campus swimming pool, which is reserved one night a week for girls only. The Hamilton Trophy is awarded each year to the organized living group which earns the most points through individual participation in sports.

INTRAMURAL SPORTS

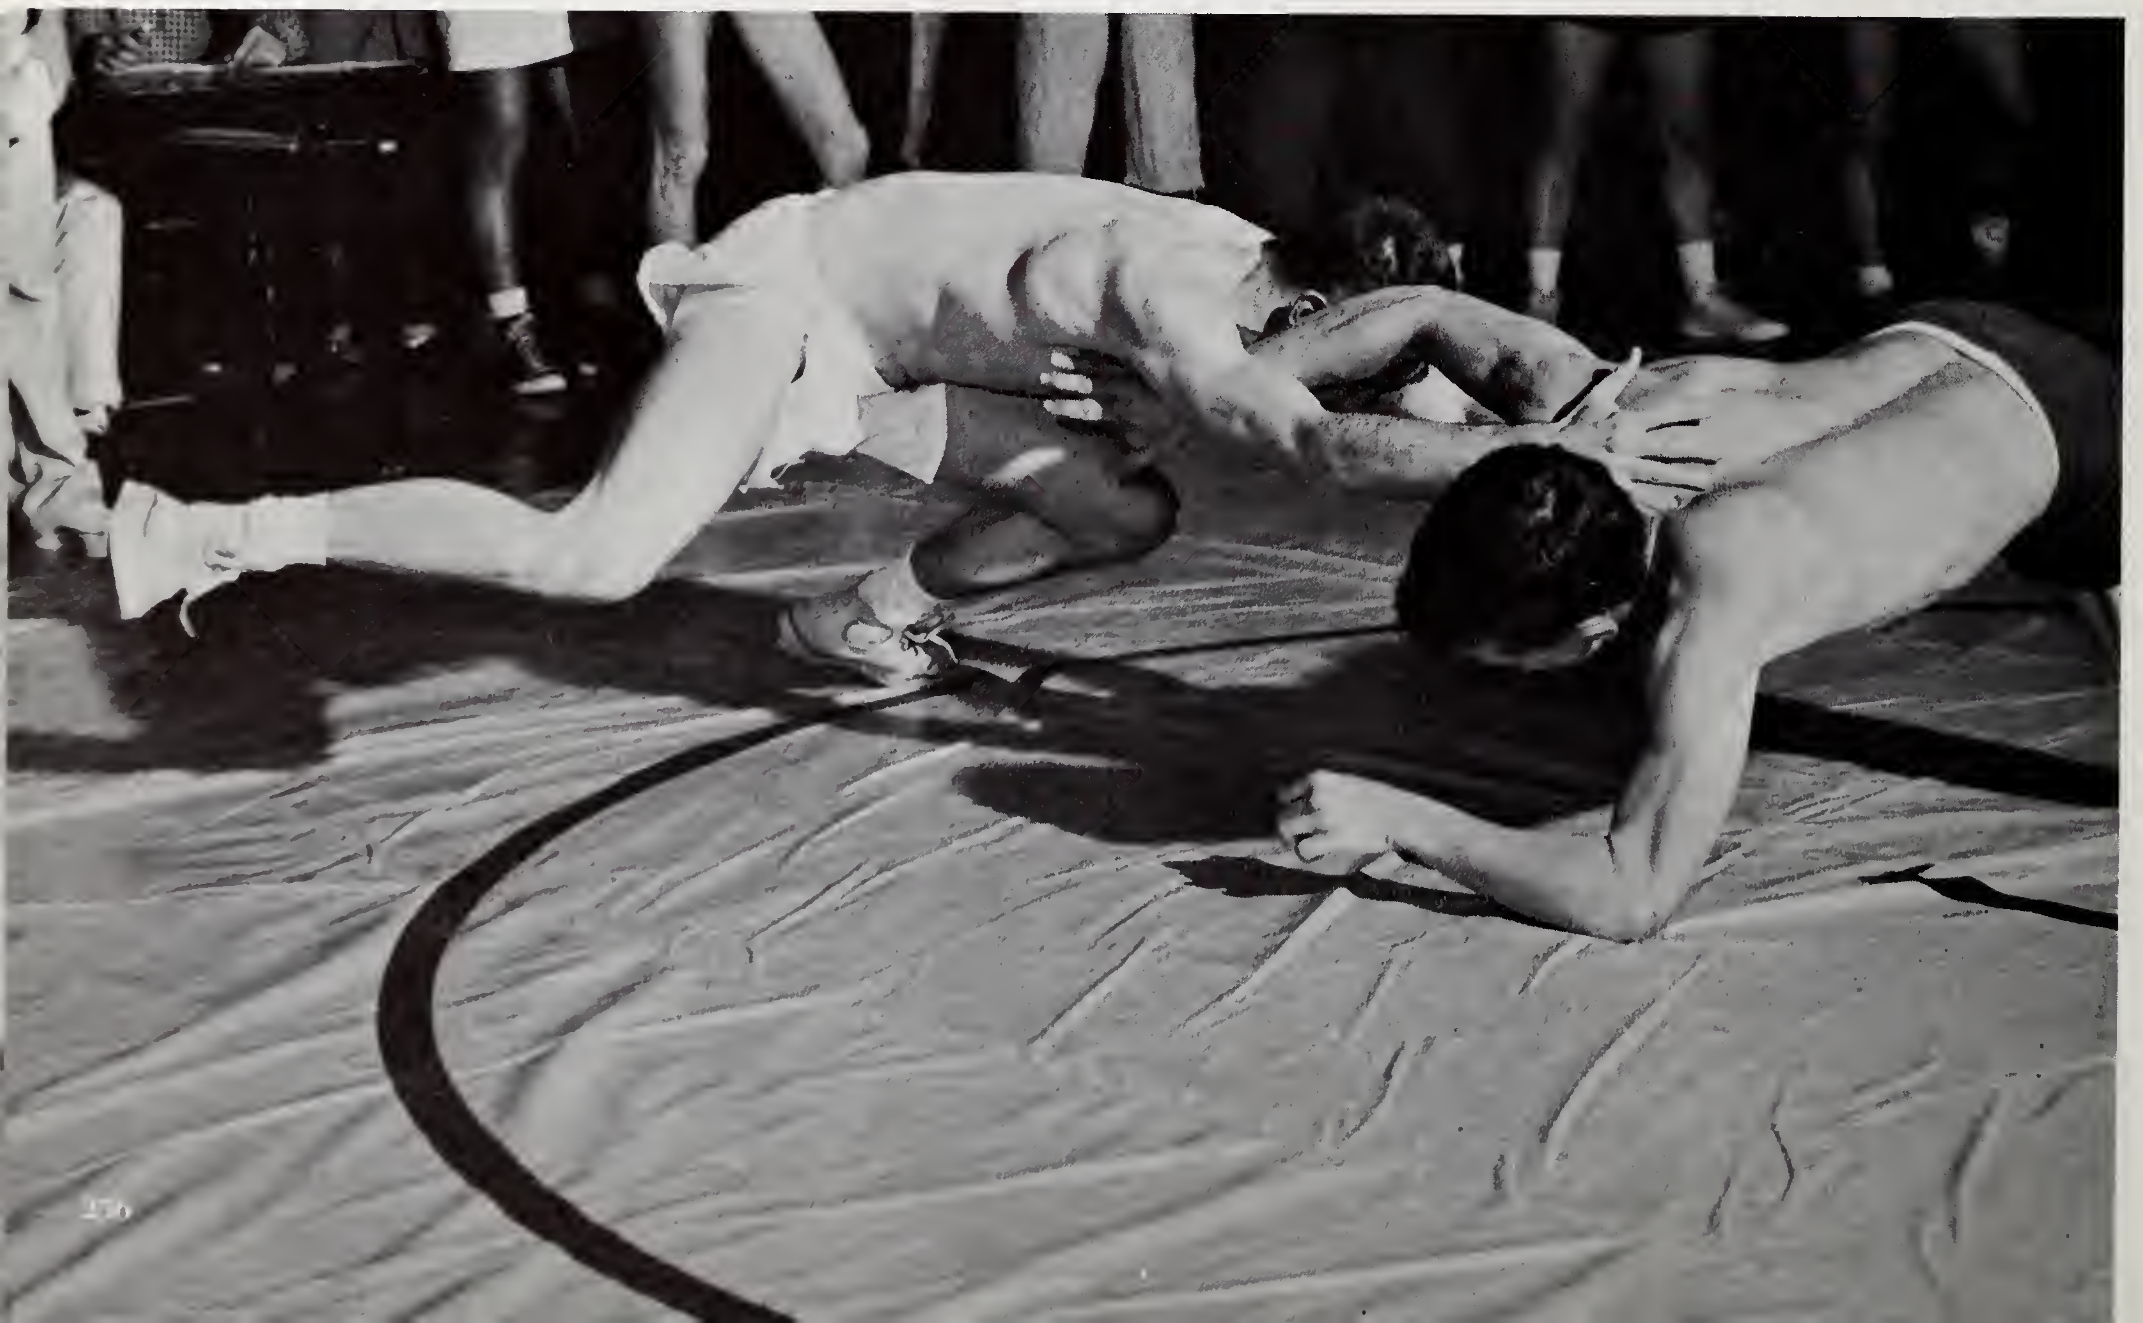
A smash at the net wins a well-earned point for the team.

Men's intramural teams matched skill and luck in competing for the top standings in the various athletic events. There were two leagues with Greeks participating in one and independents in the other. A champion in each sport was named with a contest between the top team from each league. The Sigs got off to an early lead in total point standing by taking first in football. The SAE's held a solid second place.

Poppie has the pigskin, but has't yet eluded all foes.

Height helps when waiting for that rebound.

Getting both shoulders against the mat for the count isn't always easy.



Baseball is the sport of the day on any empty field near campus when spring arrives.

INTRAMURAL SPORTS

Under the leadership of Bob Beck, faculty adviser, and Duane Delger, Student Manager, the intramural program at MSC flourished during the past year. Many times during the seasons tempers flared and action was rough, lending to favorable competition. In the end all were friends and intramurals proved a big success to all concerned.

Everybody is intent on where that small ball will go.

This fifty-piece choral group carried on its extensive program this year under the direction of Mr. Maurice Casey. Membership is open to all student interested in developing their talents in music. Through many long hours of practice, members of the Concert Chorus became better musicians while entertaining audiences at MSC and throughout the state while on their annual spring tour. Their programs on campus, including concerts and assemblies, were well received by students and faculty alike.

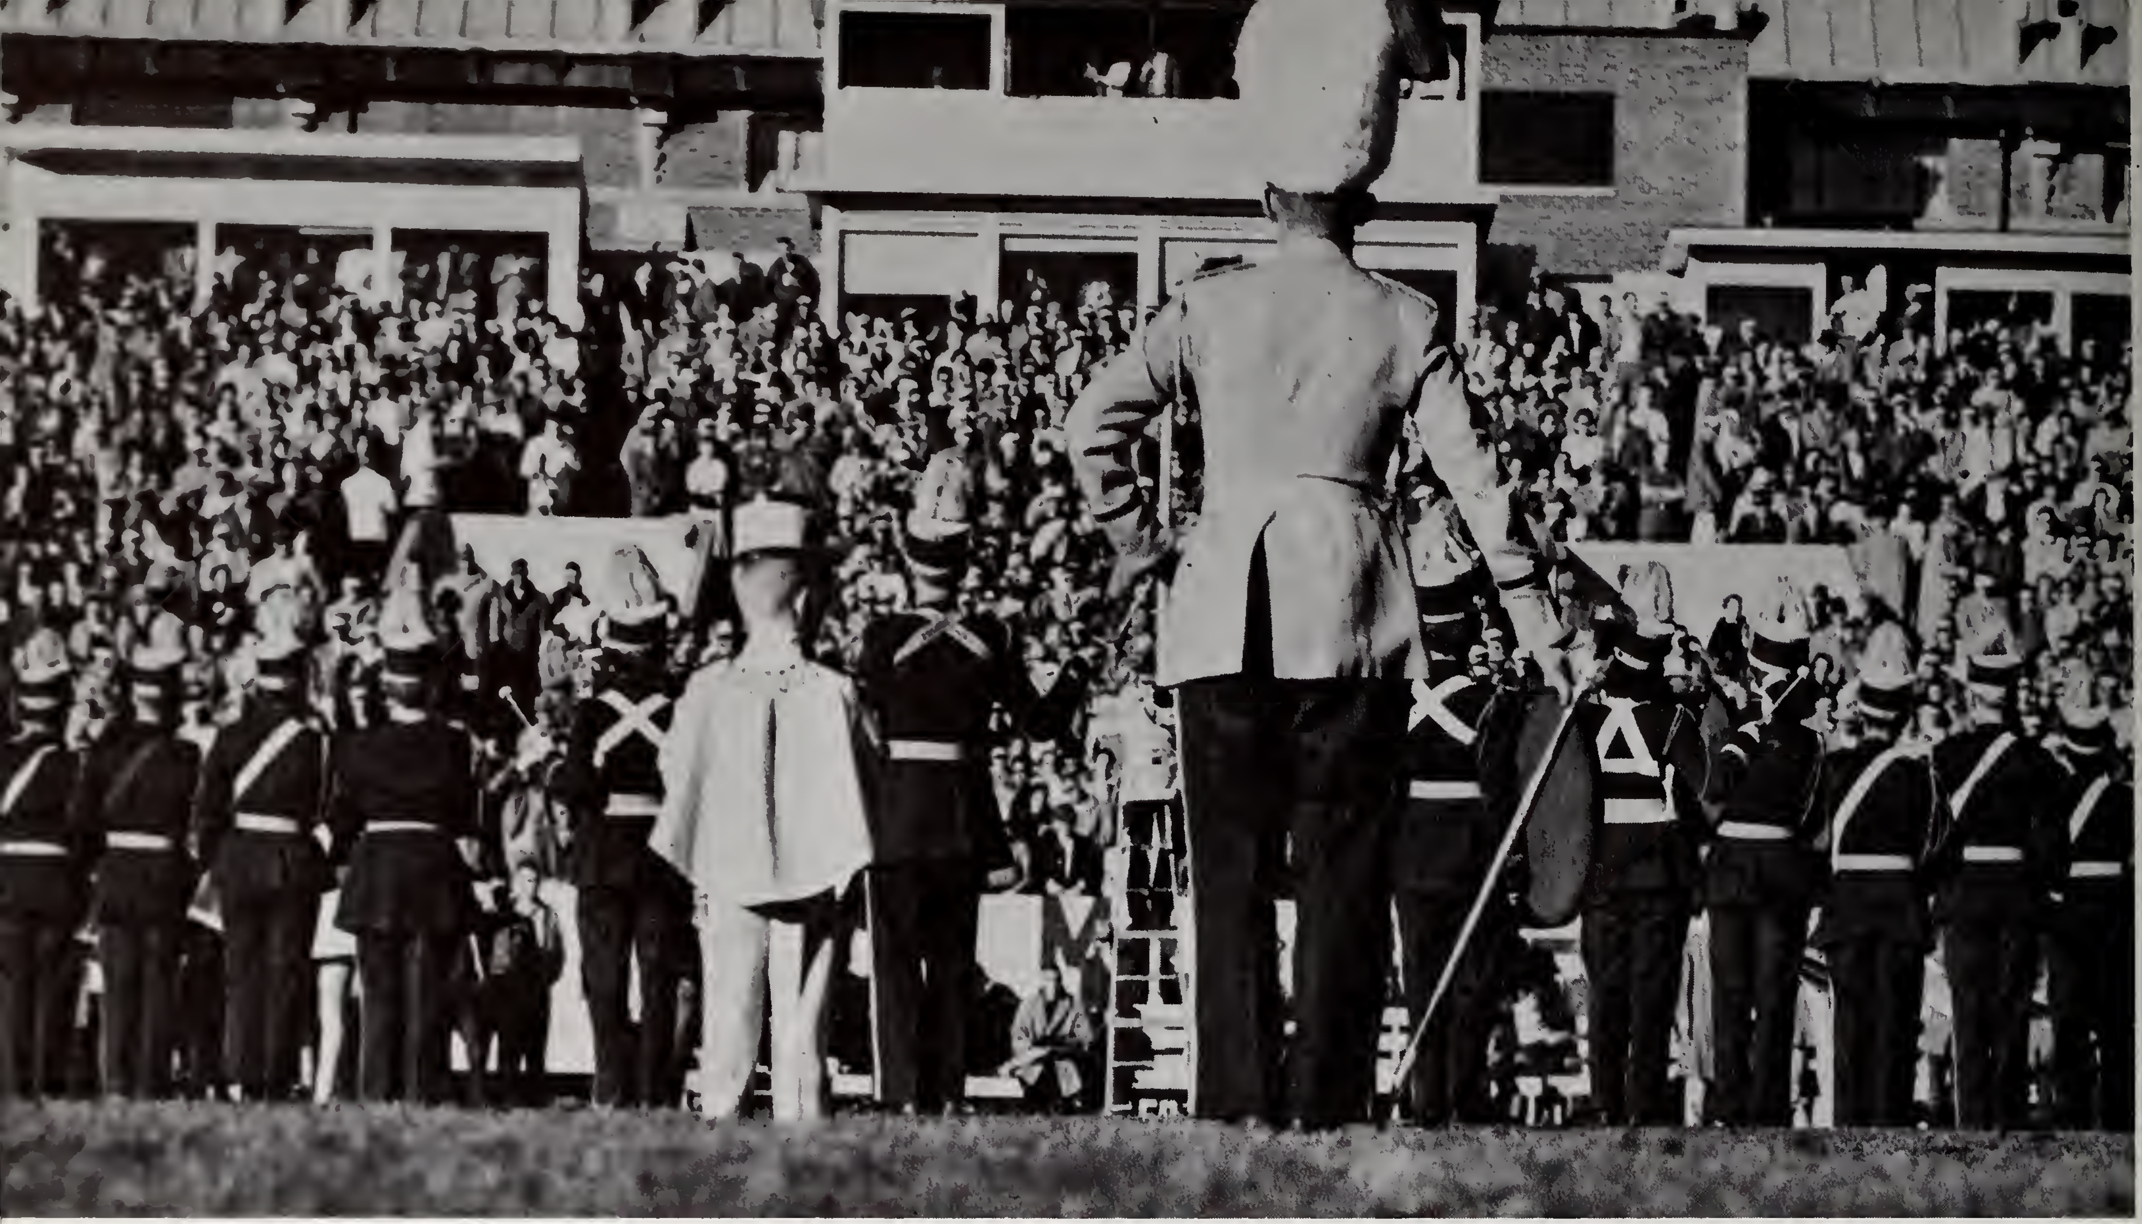
Accompanists for Concert Chorus play four-handed music as background for the group.

Mr. Edmond Sedivy, Symphonic Band director.

Under the direction of MSC's own Ed Sedivy, the Montana State College Symphonic Band has won itself a proud place among the musical groups on campus. Representing the college on its annual band tour, band members successfully pleased audiences all through Montana with their novel and varied programs. In addition to the annual tour, this 84-piece group presents formal concerts for the benefit of students and townspeople several times each year.

Symphonic Band has produced enjoyable music for all throughout the entire school year.

SYMPHONIC BAND



"The Star Spangled Banner" precedes the beginning of each football game.

From the sidelines of football games and basketball games this year could be heard the strains of loud, spirited, and usually harmonious music. The guilty musicmakers — the Marching Band — provided a never-failing atmosphere of school spirit while receiving little recognition for their efforts. Under Ed Sedivy's talented supervision, the Marching Band presented several colorful half-time shows at football games and helped lead the Bobcats to victory in many winter games in the fieldhouse.

Mr. Sedivy leads the group during each halftime show.

The band must be directed regardless of weather.

THE MARCHING BAND

THE MADRIGALS

Madrigal Singers supply a variety of musical numbers at school assemblies and civic gatherings throughout the year.

Maurice Casey's Madrigal Singers thrilled audiences again this year with another series of their fine musical programs. At Greek functions, at all-school dances, at assemblies, and at special concerts, the Madrigals produced their usual masterful interpretations of familiar ballads and lesser known songs. In addition, these twenty-four talented musicians conducted an extremely successful concert tour throughout the state during spring vacation.

Assemblies featuring the Madrigals draw enthusiastic crowds.

Symphonette presents a concert each spring which draws both students and townspeople.

Creech Reynolds conducts the musical group with a trained eye and ear.

The Montana State College Symphonette, heard during special concerts and their spring tour, expended many hours of time and effort this year to present some of their finest music. Members chosen from the MSC Civic Symphony and under the supervision of Creech Reynolds, performed all year long for listening audiences.

SYMPHONETTE

DEBATE

Composed of Debate, Oratory, Extemporaneous Speaking, and Interpretation divisions, the MSC debate team this year went through a nearly undefeated season. Competing with teams from Utah, Oregon, Washington, and eastern Montana, the MSC debaters showed a record of which they were duly proud. From their participation in the Tournament of Champions at Linfield College, Oregon, and the Pi Kappa Delta District meet at Bellingham, Washington, local debaters continued on to the National Invitational Debate held at West Point, New York.

Don Micken presents his views with a smile for the challenger.

Tina Reynolds is one of two girls competing with other schools for MSC.

DEBATE

Mr. Lawrence and two debaters examine an invitation to attend another competition — perhaps a chance to win more trophies.

Jack Dunn explains his stand with gestures for emphasis.

Chosen as one of three teams competing from the Pacific Northwest, Jack Dunn and Gary Crane were sent to represent MSC at the National Invitational Debate Tournament held at West Point, New York during April. As District Governor of the Pi Kappa Delta Forensics honorary, Martin Perga aided his team-mates locally as well as on a wider scale.

Contestants from various schools compete with MSC for top honors.

Gary Crane stresses his point for the benefit of the women in the audience.

Tennessee Williams' dramatic triumph, "A Streetcar Named Desire," was presented on the MSC Little Theater stage this year under the able direction of Mr. Joe Fitch. This Pulitzer Prize-winning play was the complete psychological study of a mentally ill individual. This role, excellently portrayed by Marty Lee as Blanche, was the transporting element of the entire production.

In "A Streetcar Named Desire," Marty Lee is a broken teacher.

Fantastic stories told by his psychotic sister-in-law don't phase Stanley.

PLAYS

"Streetcar" traveled to Missoula to present the production for the University.

A previously happy homelife is wrecked by the advent of an elder sister.

The play began with the advent of Blanche in the previously happy household of her younger sister and progressed through her final commitment to a mental institution. Produced capably and enthusiastically by the MSC players, this controversial drama played to capacity houses both on this campus and at the University.

PLAYS

Stanley takes advantage of the situation when his wife is gone to the hospital.

PLAYS

One-act plays provide an evening of entertainment for all.

The presentation of "Amahl and the Night Visitors" was a bold new undertaking on the part of the MSC dramatic department this year in collaboration with the music department choral groups. Directed by Charles Billings with music directed by Maurice Casey and choreography staged by Harvey Jung, this seasonal opera by Menotti was well received during its presentation at the Christmas season.

Blanche's stories soon begin to be mistrusted even by her younger sister.

Amahl's mother impresses him with the value of telling the truth.

Connie Koski, soprano soloist, lends her talent to many school functions.

Knut Skram is featured in many campus musical events.

A well-known band on campus is Stan Jones' "Swing Cats."

Among any representative entertainment group on campus, there shines either a part or whole of that group that is unusual either for its talent or manner of presentation. The groups and individuals pictured here have been chosen not necessarily because they are the only talented performers, but because they represent a varied cross-section of the entertainers at MSC.

INDIVIDUAL TALENTS

Phil Schneider's Playboys provide music for dancing and listening at numerous school mixers.

Tom Richardson has appeared as baritone soloist in a number of musical events throughout the year.

Jim Huggins, left, and John Chase, right, are seen on all parts of the campus with their cameras, recording the year's activities on film.

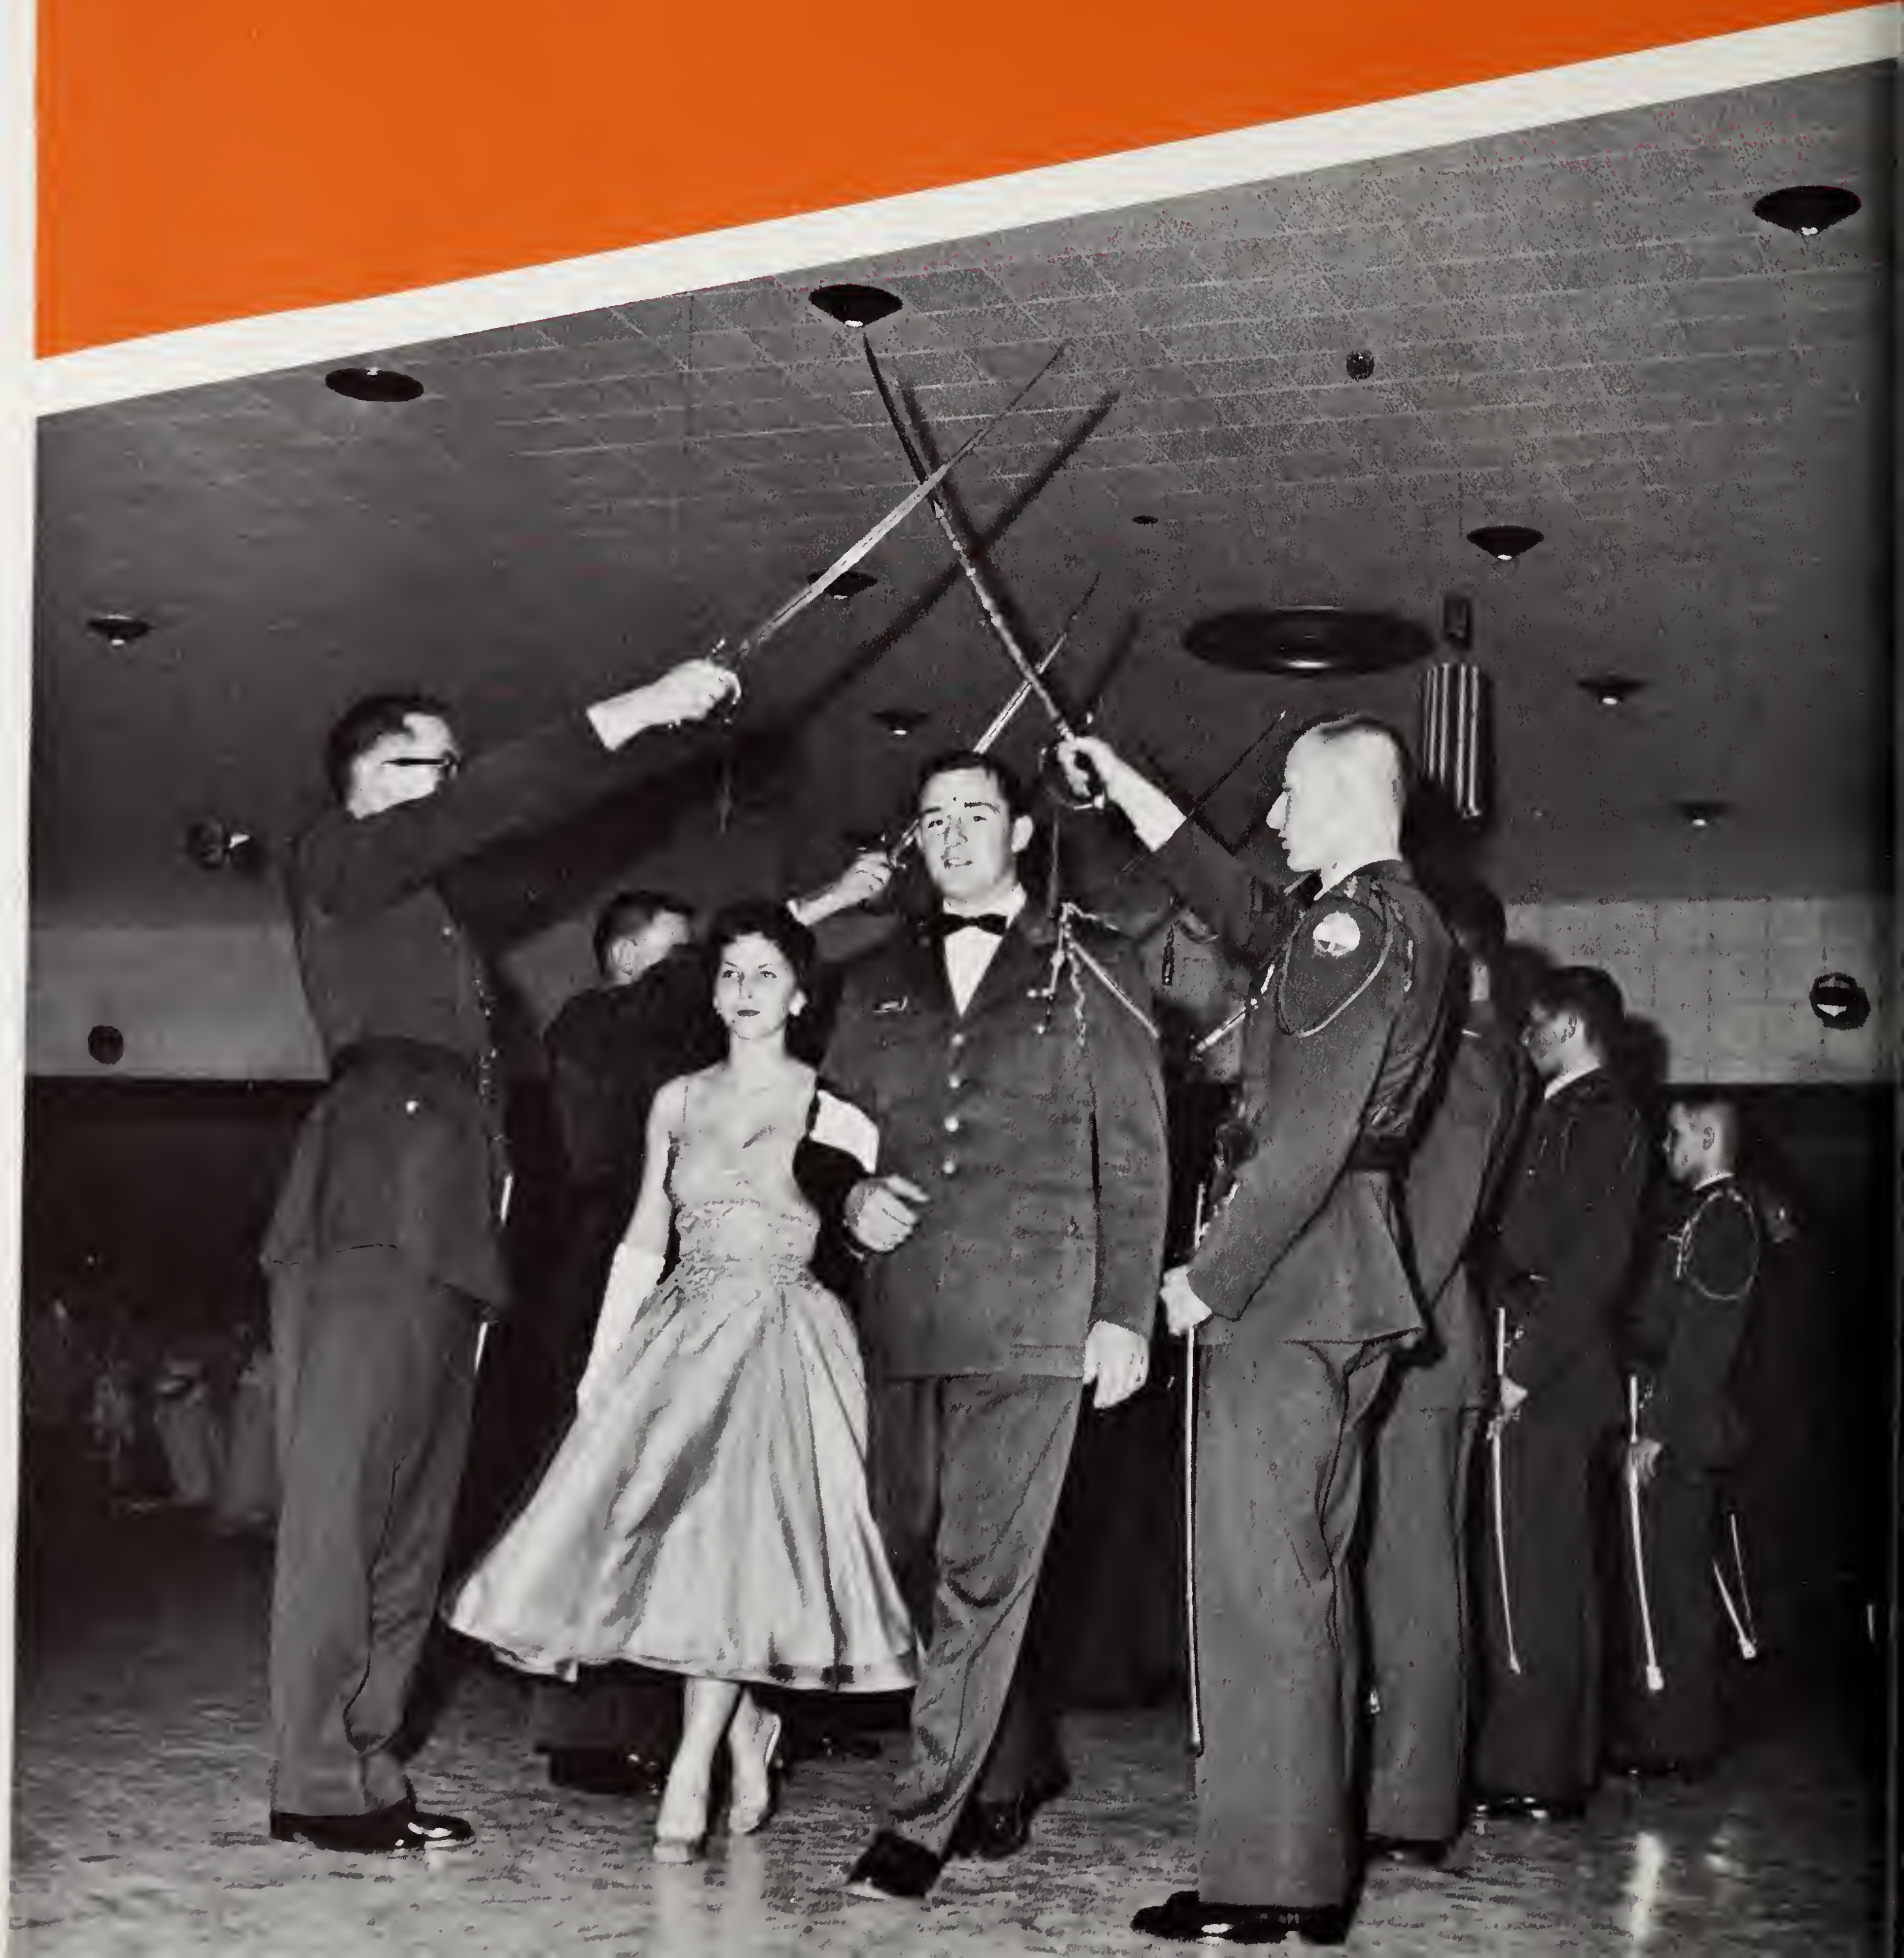
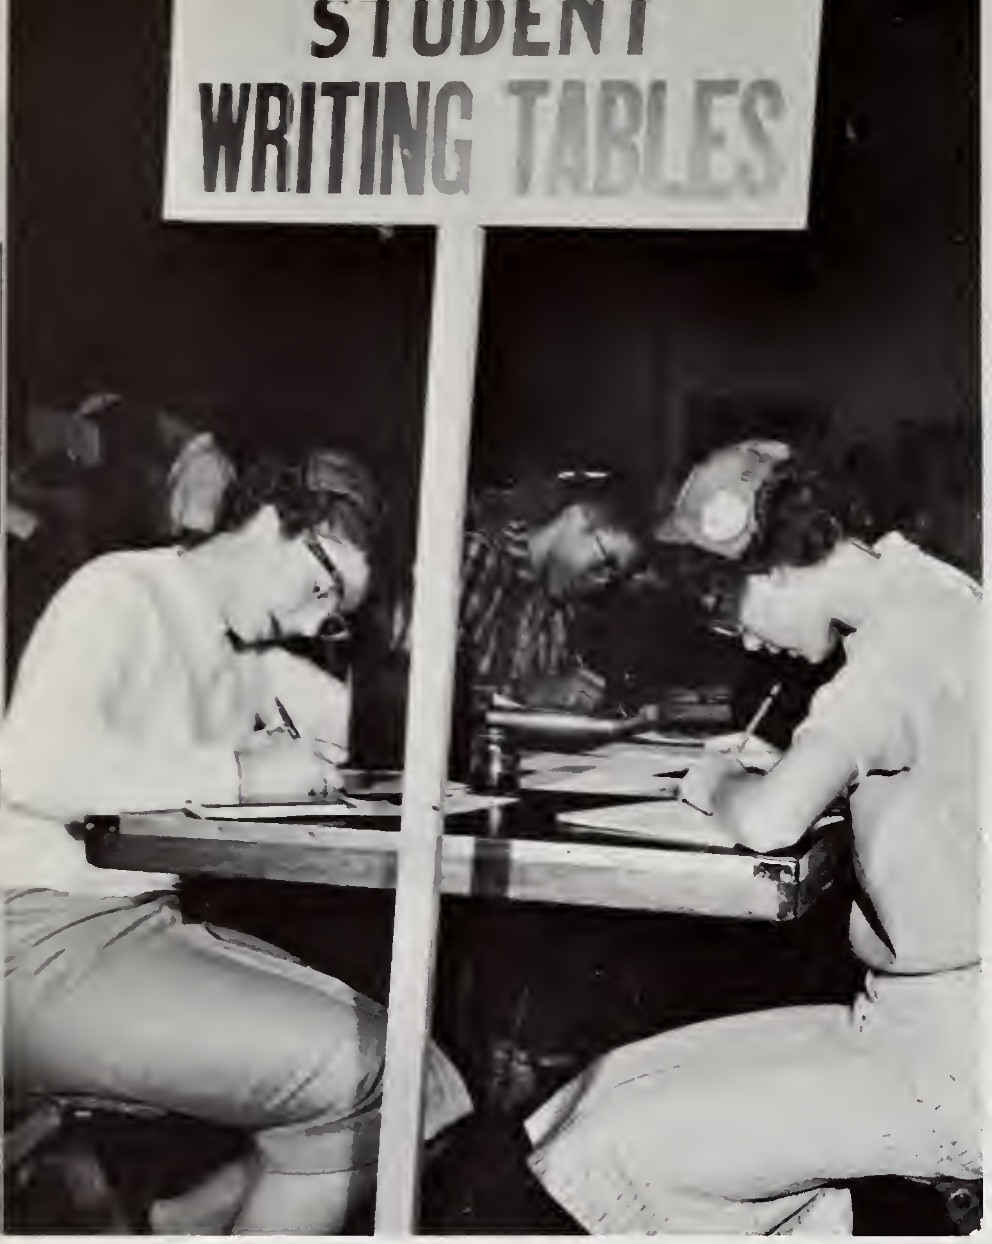
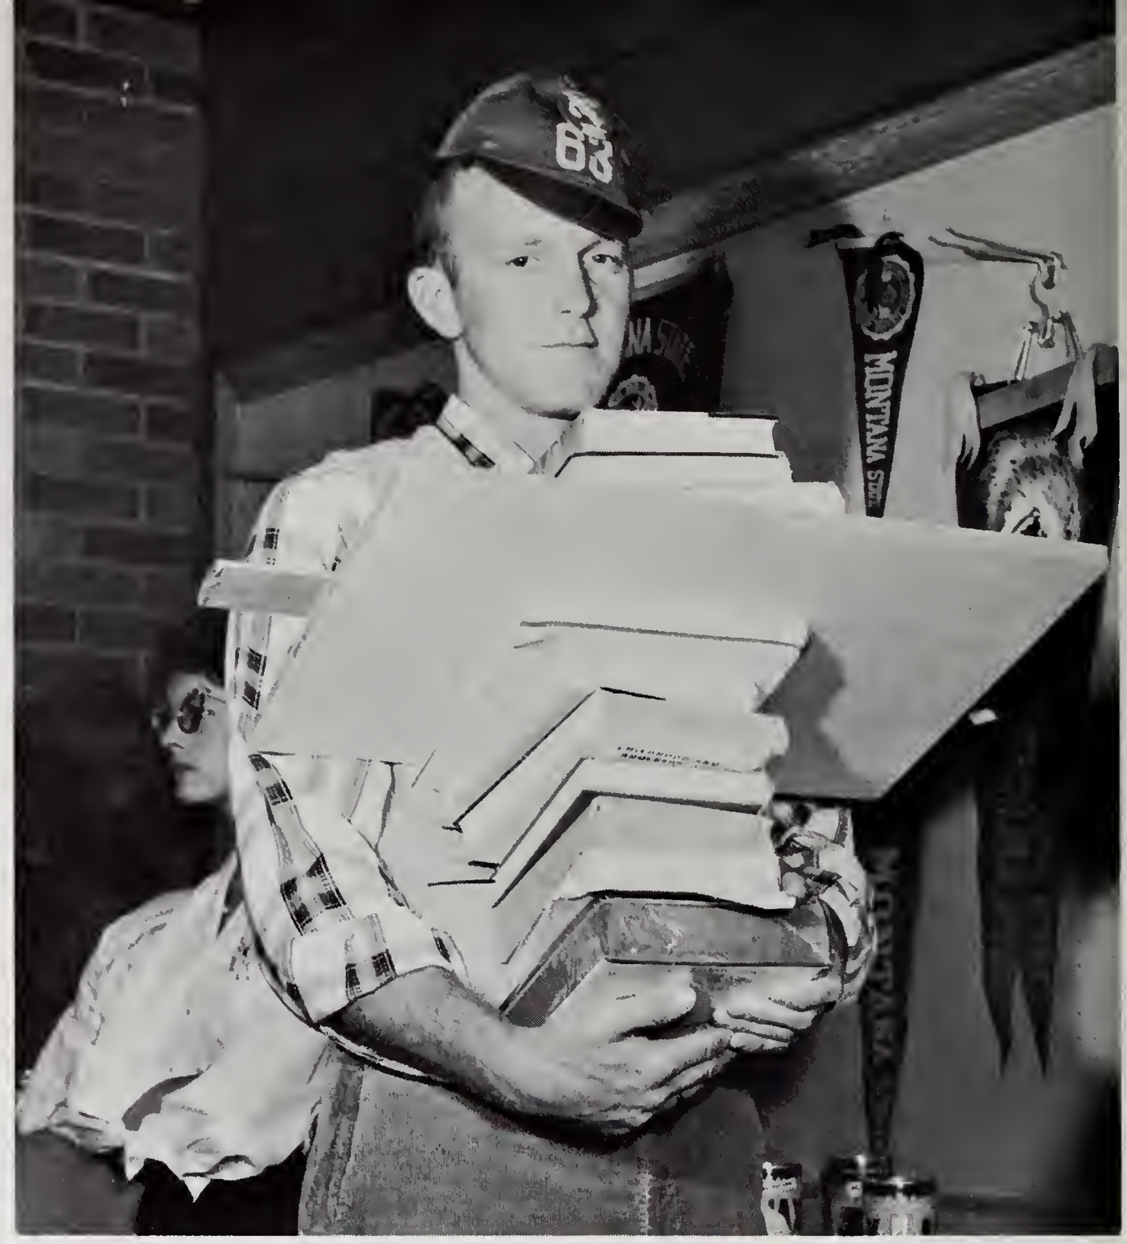
EVENTS



There is a time for some things,
And a time for all things;
A time for great things
And a time for small things.
—*Cervantes*



Figuring out a college schedule for the first time proves to be a complicated event.

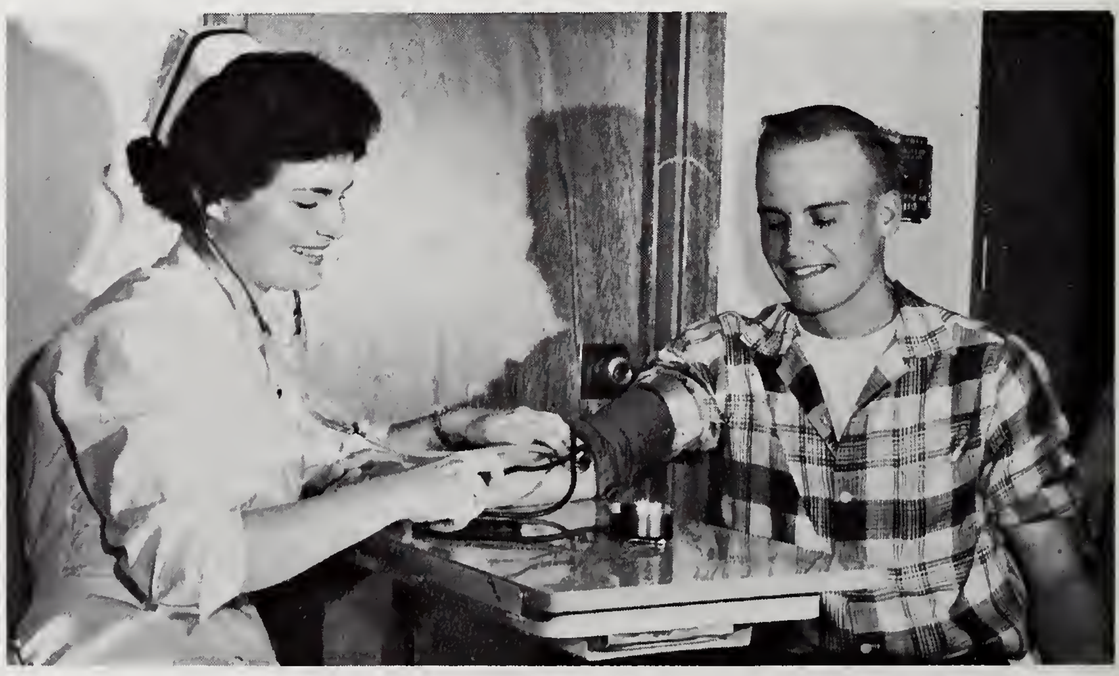


A college freshman soon learns that free education costs money after all when it comes to buying supplies.

FRESHMAN WEEK

Although orientation is a rather painful-sounding word, MSC greeted its "wearers of the green" with a Freshman Week that was enthusiastically enjoyed by twelve hundred freshmen. Amid the rush and hustle of this new experience the frosh quickly made new friends among their new classmates and among the whistle-blowing Spurs and Fangs. After a grueling session of entrance tests, tours, lectures, physical exams, and social events, the Freshmen were ready to attend their first campus mixer. Here they were compelled to buy and wear green beanies to be worn during the coming days, or pay the savage consequences.

Physical exams aren't quite so hard to endure when a pretty nurse does the job.



The happy clang of the cash register means that now it is time to spend that hard-earned cash.

Conflicts in class scheduling are just one more added delay when registering.

Registration is always a bewildering experience, even to those sturdy upper-classmen who have weathered it for several quarters (or in some cases, for several years). Serious doubts arose as to schedules as students waited in line for hours, but were rapidly quelled by advisers' assurances that Saturday classes and four-hour afternoon labs were unavoidable. Once past the adviser's scrutiny the next problem was to fill out both sides of numerous cards completely and hurry on to sectioning — only to wait in more lines. For the frosh experiencing this ordeal for the first time, this was indeed a rude awakening to college life. All left the registration building feeling very tired, very broke, and very much a part of the "great college tradition." This year showed a larger enrollment than ever before with a strong percentage of out-of-state and foreign students entered in school each quarter.

Following only two weeks after orientation and registration, preparations for Homecoming were made quickly and efficiently. At the Friday night variety show provided by comedian Bob Hope and his troupe, Maxine Nordby was crowned Homecoming Queen to reign graciously the following day. The parade on Saturday morning followed a musical theme and wound brightly through town before returning to the campus. To add to an already glorious day, the Bobcats trounced North Dakota State in a thrilling afternoon game. Open houses and alum reunions were held following the game for the benefit of returning alumnae. Men's Co-op and Alpha Gamma Delta placed first in their respective float divisions, while Sigma Alpha Epsilon with "Carousel" and Kappa Delta with "Alexander's Ragtime Band" won house decoration awards. A lovely finish was added to a fabulous day as students and alumnae alike danced to the captivating music of the Jimmy Dorsey band. General opinion: the best Homecoming yet.

M-Day Eve Mixer began the Homecoming weekend with music and happy smiles.

Freshman class president elections were a part of this busy week's activities also.

A riverboat in full regalia adds to the variety of novel entries in the annual parade.

BEN FRANKLIN

Harvest Ball early this fall quarter was highlighted by the crowning of the queen, Lynn Birkeland.

Regardless of the skill or interest in dancing, most MSC students found at least one school dance in their social schedule during fall quarter. Whether it was Homecoming, the Spotlight Dance, the S'no Foolin' Ball, or just a Friday night mixer, students kicked up their heels and enjoyed themselves to the music of several local and imported bands. "M" Day and Freshman week mixers aided the majority of males in meeting the girls, whose minority on campus was of special value at these functions (to the girls only.) Dances of all types were eagerly awaited on campus and were well attended throughout the quarter.

FALL DANCES

Beatniks — authentic or not — had their night at the Independents' Beatnik dance.

Chairs just would not fit into this "way-out" scene at the Beatnik party.

Mind over matter is the question of the hour in these times of the Beatnik.

Again this year in competition with the University, Montana State College sponsored the all-school blood drawing. MSU's 542 pints were far outnumbered by MSC's 604 pints, or a margin of 62 pints. MSC also led in the percentage of students donating blood as few townspeople contributed. Under the chairmanship of Steve Hadnagy, Gene Levang, Karen Johnson, and Paul Blizniak, this year's blood drawing was, without doubt the most successful blood drive on campus. To the winning fraternity with the highest per cent of turnout was awarded the IFC trophy. Winner of this trophy was Sigma Phi Epsilon, with a turnout of 100 per cent.

Volunteers furnish the clerical staff for the annual Blood Drive.

THE BLOOD DRAWING

This may be the pint of blood that helped top the amount given by MSU.

Those giving blood must be in good health themselves in order to share their red fluid.

Each squeeze of the hand pushes more blood into the waiting bottle.

PI WEEK

The annual Pi Kap "Pi" Week was held again this year in conjunction with the local March of Dimes. The Pi Kaps held nightly open house during Pi Week and provided entertainment for pi-eaters who came to watch and vote, or provided delivery service for residences on campus. At the Pi week mixer held in the SUB ballroom, Pi Kappa Alpha president Jack Burlingame crowned Barbara O'Neill "Miss Pi Week Queen of 1960." Winners of the pie-eating contests were Curt Overby in the men's division and Virginia Yankoski in the women's division (with Shaun Kelly running — or eating — a close second.)

Barbara O'Neil, Pi Queen, smiles happily as she grasps her shining trophy.

Table manners were not stressed at the pie-eating contest.

Some people did more than their share in helping to support the March of Dimes by eating pies.

SNOW CARNIVAL

The 1960 Winter Carnival, held February 26 and 27, was the best on the MSC campus. At the Friday night Ski Club-sponsored party at Bear Canyon Ski Lodge, Bill Poppie and Barbara Holland were crowned as the reigning royalty for the weekend. Saturday night brought the snow carnival to a close with the announcing of snow sculpture and intramural winners. Winners of the ski races and the giant slalom at Bridger Bowl were the members of the Sigma Chi intramural team racing for AOPi. First place snow sculpture prizes were awarded to Delta Gamma for their Tyrolian theme and to Lambda Chi Alpha for their portrayal of a toboggan and its crew.

Delta Gamma's "Man with a Pipe" displays hours of work in the snow.

Barb Holland and Bill Poppie receive their trophies for Queen and King of the annual Snow Carnival.

Barb Holland receives her trophy with a smile as she is announced Queen at the event.

Decorating gets underway the afternoon before for the annual Pi Phi Derby Dance.

Record pantomimes add comic variety to the evening's entertainment.

WINTER DANCES

1958 Coed Colonette Caroline Nicholas leads the way through the crossed swords of Scabbard and Blade.

Winter quarter, as always, was the year's big social season at MSC. Lavish sorority parties were held, and even more ornate fraternity functions accompanied them, as was evidenced, for example, by the uniquely decorated Kappa Sigma Stardust Ball. All-school dances included the Pi Week Mixer, the Chinese Auction, and the Derby Dance. This mid-quarter function, based on a Sweetheart theme, was the setting for the crowning of Phil Schneider as MSC's King of the Hill. As a colorful climax to this year's winter social whirl, the combined ROTC units sponsored the annual Military Ball. Topping off an evening graced by the presence of MSU's Angel Flight, Miss Maureen Dineen was crowned the Coed Colonelette of 1960.

As a part of the traditional program of the MSC Music Department, the Christmas Sing was held again this year in conjunction with the MSC Civic Symphony. Members of each organized living group on campus gave their renditions of traditional and modern, familiar and little-known songs of the season. Including the participating members of the Civic Symphony, this year's Christmas Sing had a record number of participants — nearly 900. Under the direction of Music Commissioner Randy Barthelmess and emceed by Bruce Jacobsen, the Christmas Sing was presented with a spirit of true cooperation and deep meaning.

Pi Kappa Alpha adds a serious note to the annual Christmas Sing with their religious carol.

CHRISTMAS SING

Phyllis Owens provides organ music before the Sing to instill in all the Christmas spirit.

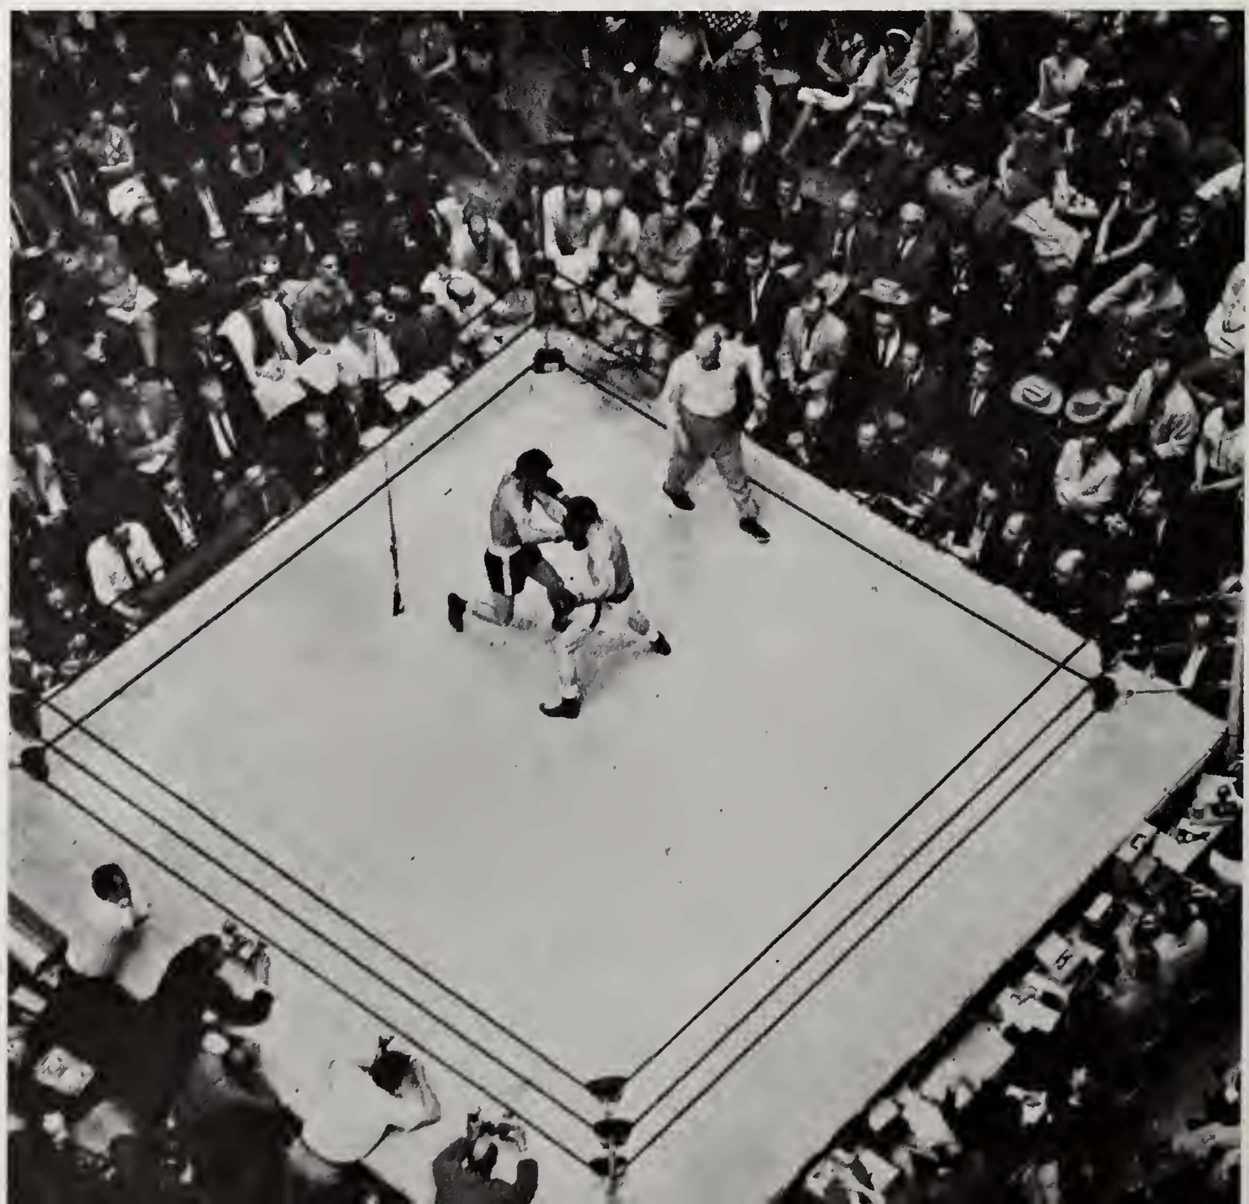
All living groups on campus are represented at the annual affair.

Alpha Gamma Delta provides a bright carol for the many students and local townspeople present and those listening to their radios.

Joey Giardello and Gene Fullmer presented a fight that will long be remembered by the thousands who attended.

FULLMER RETAINS

The fifteen-round match ended in a draw with both men scoring an equal number of points.



Montana State College Fieldhouse saw all attendance records fall by the wayside this spring as the middleweight fight between Gene Fullmer and Joey Giardello drew a record-breaking crowd. Fullmer and Giardello hammered it out to a fifteen-round draw, the first draw in twenty years for a championship fight. Both fighters suffered fourth round head gashes that hampered them some for the remaining eleven rounds. Fullmer's conditioning showed up in the remaining few rounds to even things up with the impressive early round ring work of the challenger, Giardello. Mixed emotions from both corners followed the decision of the officials, but to no avail, as the decision stood. This was the largest sporting event ever to take place in Montana, and a great promotion for our college, as well as the state of Montana.

A crowd of twelve thousand streamed into the fieldhouse to view the championship fight.

TRACK

The weigh-in was viewed by many as the contenders were checked for the 160-pound weight limit.

During spring quarter the hurrying of dungaree-clad students around the college barns was a pretty good indication of preparation for the 26th Annual Little International stock show. The committees working on the many behind-the-scenes aspects of the show were equally busy. The two-day show was held in the fieldhouse and drew spectators from all over the state. Prizes valued at $1500 were awarded to the winners on the basis of showmanship and the exhibitor's ability to properly fit his animal.

Champion ewes are displayed each year by their proud showmen.

RODEO

Bullriding event brings gasps and cheers from the many spectators.

Making its major effort of the year, Rodeo Club again sponsored its fine inter-collegiate Rodeo in the MSC fieldhouse. College teams from several states competed in this event for which Joyce Boland was chosen as Rodeo Queen. As a project connected with the Rodeo, arrangements were made to bring the orphans from Twin Bridges and the boys from the Yellowstone Boys' Ranch to watch this outstanding event. Another added feature to this year's Rodeo was the fact that the World's Champion Bucking Horse, Trail's End, was among the bucking stock to be used. The Rodeo parade highlighted the last day of this three-day pageant, and the Saturday night all-school mixer was the site of the awarding of all individual and team trophies.

SUMMARY of an Eventful Year

Whether you entered school this year as a poised and ardent senior, or as timid and bewildered freshmen, this has been a memorable year. For each of you it meant something different. For the freshman it was a first experience as an individual; for the senior it was perhaps a last glimpse of seemingly endless years of schooling. But whoever you were, it was a year that bound you and MSC a little closer, and gave you, we hope, an additional portion of that pride in Alma Mater. School spirit enveloped you as you stepped into the year and you saw it exercised in events throughout the season. This year you cheered for the Bobcats at their hard-fought games and you showed your spirit at pep rallies, at "M" Day, and at assemblies. You worked for days and nights on Homecoming floats and you sat in the rain because you attended and projects were completed because of your interest. And because you did show pride in our school we were able to present you with some of the finest entertainment we could obtain. Bob Hope kept you laughing during Homecoming and you danced the next night to the music of Jimmy Dorsey. You heard the Kirbey Stone Four and danced to Les Brown, and if you were so inclined you watched the challenge for the World's Middleweight Boxing Champion title being fought to a draw. Maybe you were a Greek or maybe not. But it wasn't this that mattered in the final result. You all received the same warm feeling from seeing your work accomplished, from working to gain new goals. And it seemed that in all this year of activity, there was seldom time to catch your breath. You dashed from class to the SUB and back again. What had been a fantasy of imaginative decoration by night was returned to a commonplace assembly room by day; what had been outdated and quaint last fall was perhaps nearly replaced by spring. And with spring came the close of another academic year, the year that brought with it a new decade. If you were a senior, graduation was next, if not, more years like this one lay ahead. And so this year has closed, not without memories, not without many friendships, and not without a little sadness. Nothing more can be said, except to wish you all the proverbial good fortune and happiness augmented by a good year, the best year, the year just past.

With unrelenting
crescendo, the
symphony of a
life replete
with melodic
progression
hastens to its
finale. And a
friendship that
is ours to share,
with its "largos"
and "allegros"
moves over . . .
lasting; onward
in sweet memories.

We're assuring power for YOUR future

In the past decade we have spent $120,000,000 on new plant and property, a good part of which will assure you of power for the future.

Our engineers' drawing boards now hold plans for the lines that will whisk electricity from the generating plants they'll build . . . for you and your children.

Just give us the opportunity to continue supplying adequate power, and we WILL.

Human Intellect grows of its own action

Business, too,
must grow from within.
It grows in proportion
to the service it renders.
